Chancellor's Message Adopted Budget 2017/18

The proposed 2017/18 Adopted Budget is the result of a process of participatory governance led by both the Planning and Organizational Effectiveness (POE) Committee, which provides general planning related to the budget, and the Fiscal Resources Committee (FRC), which reviews the budget assumptions that were used as the basis for this budget. District Council, our primary participatory governance body, provides the final review and recommendation to me.

The proposed Adopted Budget includes an additional base allocation increase of \$4.29 million along with a Cost of Living Adjustment (COLA) of 1.56% and although the state budget includes an allocation for growth funding of 1%, again this year we are not budgeting any growth revenue. Unfortunately the district ended the 2016/17 fiscal year down 4.79% or a loss of 1,384 full time equivalent students. Without enough summer FTES to "borrow", the district went into stabilization. This means the district was held harmless in 2016/17 at the 2015/16 revenue funding level. The district is now in "restoration" in 2017/18 meaning we must earn back the lost FTES or we will take a permanent reduction in our funding level immediately. In fact we have budgeted for a loss of 237 FTES or \$1.16 million.

The overall revenue assumptions net approximately \$6.1 million in additional ongoing funding. The expense assumptions include the continued increases in the cost of PERS & STRS, Health & Welfare increases, budgeting for all other necessary operating costs, and includes a 5% contingency reserve consistent with Board Policy. The ongoing expense assumptions net approximately \$7.4 million, or about \$1.3 million more than our ongoing revenues. This shortfall is balanced in 2017/18 using the one-time Round 1 budget reductions made in 2016/17. This structural deficit will need to be addressed along with any other increased costs during the fiscal year when planning for the 2018/19 budget.

The proposed Adopted Budget was reviewed by the Fiscal Resources Committee and District Council and I recommend your review and adoption.

Sincerely,

Raúl Rodríguez, Ph.D. Chancellor

To ensure compliance with the California Community Colleges Budget and Accounting Manual, Title 5 of the California Code of Regulations and the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources, and all related liabilities, obligations and equities.

General Fund

The General Fund is maintained to account for the transactions that cover the full scope of operations for the District (instruction, administration, student services, maintenance and operations, capital improvements and other expenditures). All transactions that are not specifically required to be accounted for in other funds are recorded in the General Fund.

All monies received by or for a community college district from state apportionments or county or local property taxes shall be deposited in the General Fund.

For purposes of flexibility, the District may establish any number of accounts within the General Fund to facilitate reporting, management, and control.

The General Fund is divided into three subfunds: the Unrestricted Ongoing General Fund, Unrestricted One-time Funds, and the Restricted General Fund. This reflects the need to differentiate truly discretionary revenue from restricted revenue, while preserving a complete accounting of the financial operation and support of educational programs. Restricted monies such as those for categorically-funded programs are accounted for separately from other general purpose monies, but classified as a component of the total general fund that provides instructional and support services.

The ongoing unrestricted subfund shall be used to account for the ongoing resources that are available for the general purposes of each district's operation and support of its educational program. The governing board of the district may elect to set aside unrestricted monies for specific future operating purposes. The governing board may elect to transfer unrestricted monies to other funds. Similarly, the governing board may elect to return any balance of designated monies appearing in other fund groups to the General Fund. The unrestricted one-time funds subfund shall be used to account for one-time and carryover funds.

The restricted subfund shall be used to account for resources that are available for the operation and support of the educational programs that are specifically restricted by law, regulations, donors, or other outside agencies as to their expenditure. Such externally imposed restrictions are to be contrasted with internally created designations imposed by the governing board on unrestricted monies. Restricted monies are from a specific source that require monies to be used for specific purposes.

Bond Interest and Redemption Funds

The Bond Interest and Redemption Fund is the designated fund referred to as the interest and sinking fund. These funds are to be used only for transactions related to the receipt and expenditure of local revenues derived from the property tax levied for the payment of the principal and interest on outstanding bonds of the district. Each separate issuance will be accounted for in its own project code. For budgeting and reporting purposes, we have combined all issuances into one fund for presentation only.

Bookstore Fund

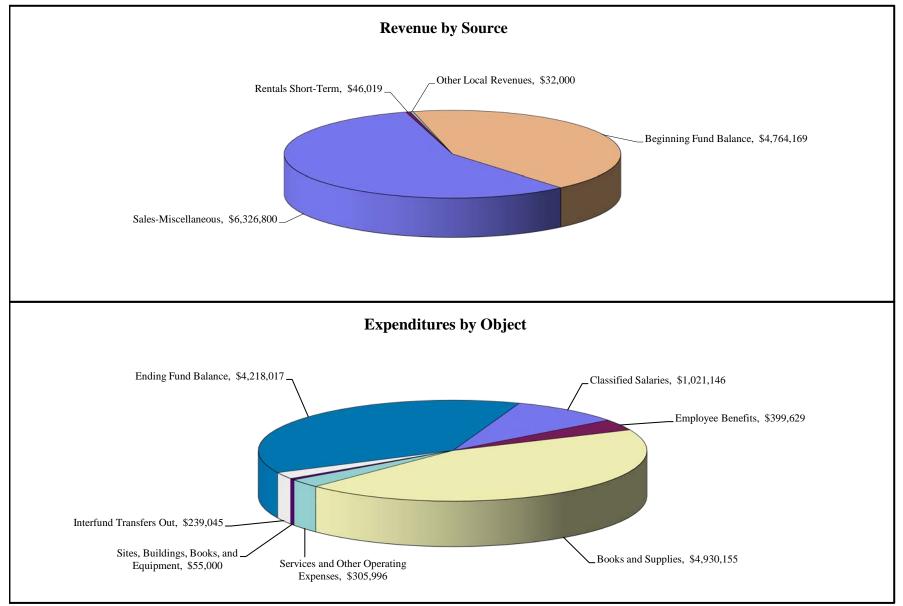

The Bookstore Fund is a special revenue fund designated to receive the proceeds derived from the District's operation of a community college bookstore pursuant to EC § 81676. All necessary expenses, including salaries, wages, operating expenses, cost of goods sold, and cost of capital improvements for the bookstore may be paid from generated revenue.

Total of \$1,381,562 of inventory is included in the Ending Fund Balance (SAC=852,396 and SCC=529,166)

Child Development Fund

The Child Development Fund is a special revenue fund designated to account for all revenues for or from the operation of child care and development services, including federal, state or local grants and student fees for child development services.

Costs incurred in the operation and maintenance of the child care and development services are paid from this fund. However, those segments of child care and development activities that are part of the instructional activity of the district must be accounted for in the General Fund.

The District currently operates five Child Development Centers at Santa Ana College, Santiago Canyon College, Centennial Education Center and Orange Education Center and Santa Ana East Campus.

Due to the reimbursement basis of certain grants within the Child Development Fund, as part of the approval of the budget by the Board of Trustees, authorization is given, as needed throughout the fiscal year, for temporary intra-year borrowing from the General Fund up to \$1 million for cash flow purposes.

In addition, with the approval of this budget, authorization is given for an amount not to exceed \$250,000 as a contribution from the Unrestricted General Fund to the Child Development Fund if needed.

Rancho Santiago Community College District *Adopted Budget 2017-18* Child Development Fund - Fund 33

Capital Outlay Projects Fund

The Capital Outlay Projects Fund is used to account for the accumulation of moneys for the acquisition or construction of capital outlay items including scheduled maintenance projects exceeding \$5,000, sites, site improvements, buildings, and initial building contents such as library books, furniture, fixtures, equipment, etc.

This fund may provide for the accumulation of monies over a period of years for specific capital outlay purposes (including district match for Scheduled Maintenance and Special Repairs (SMSR) projects as defined in *EC* § 84660 through interfund transfers of general purpose monies to the Capital Outlay Projects Fund. State monies for SMSR projects are recorded directly into this fund. SMSR is defined in *EC* § 84660 as "unusual, nonrecurring work to restore a facility to a safe and continually usable condition for which it was intended." These items are divided into five funding categories: roofs, utilities, mechanical, exterior, and other.

General Obligation Bond Fund Measure E

This General Obligation Bond Fund is used exclusively to account for activity associated with Measure E, an initiative approved by local voters in November 2002. Total bonds issued were \$337,000,000. All funds have been fully expended by June 30, 2017.

These bond funds are used for property acquisitions, planning, infrastructure creation and enhancements, new capital construction projects, equipment acquisitions, and remodeling projects.

Under the requirements of the bond, an oversight committee met regularly to ensure the District met all requirements set forth in the bond. They will have their final meeting in 2017-18 to approve the final report to the community.

General Obligation Bond Fund Measure Q

This General Obligation Bond Fund is used exclusively to account for activity associated with Measure Q, an initiative approved by the electorate of the Santa Ana College Facilities Improvement District No. 1 in November 2012. This measure authorizes the District to issue up to \$198 million in general obligation bonds to finance renovation, repair and construction at Santa Ana College. The first issuance of \$70,585,000 was issued October of 2014. A second issuance is expected during 2017-18.

These bond funds are used for property acquisitions, planning, infrastructure creation and enhancements, new capital construction projects, equipment acquisitions, and remodeling projects.

Under the requirements of the bond, an oversight committee meets regularly to ensure the District meets all requirements set forth in the bond.

Rancho Santiago Community College District *Adopted Budget 2017-18* General Obligation Bond Fund - Measure Q - Fund 43

Self-Insurance Funds

The internal Self-Insurance Funds are used to account for the financing of goods or services provided by one department or organizational unit to other units. The Self-Insurance Funds are the funds designated to account for income and expenditures of self-insurance programs.

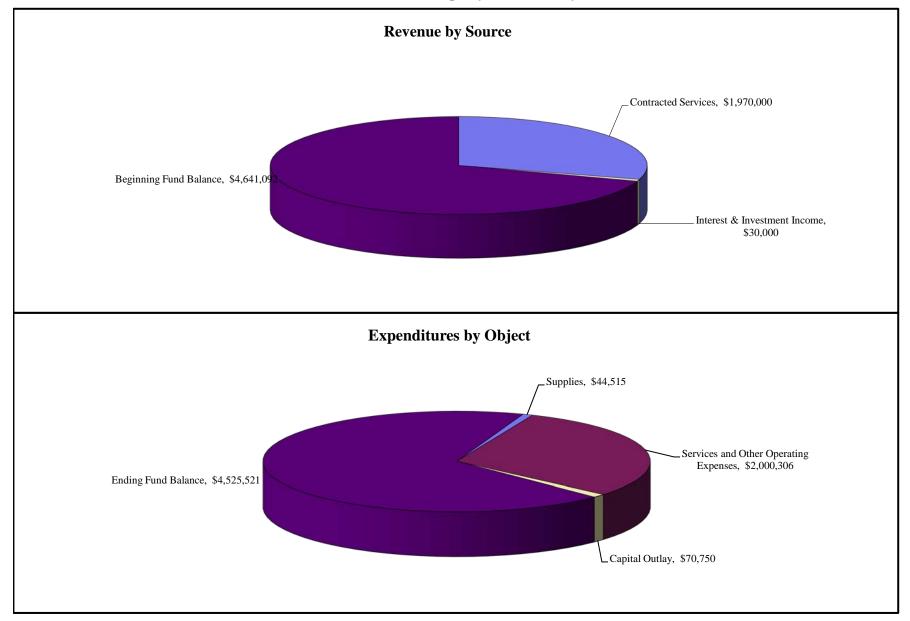

The fund shall account for all activities of the self-insurance program and shall be operated as an internal service fund. In accordance with Internal Service Fund accounting, the Self-Insurance Funds shall charge other funds for their proportionate share of the estimated claims and expenses incurred plus contingencies and reflect the receipt of monies as revenue.

The District has established separate Self-Insurance Funds for two types of self-insurance activity: property and liability insurance (Fund 61) and worker's compensation (Fund 62). All losses or claims covered by the Self-Insurance Funds are paid directly from the respective Self-Insurance Fund. If all funds of a district are combined to reflect total district revenues and expenditures, the Self-Insurance Funds revenues and expenditures are excluded since inclusion would overstate the totals, however, aggregate balance sheets would include the Self-Insurance Funds.

Rancho Santiago Community College District Adopted Budget 2017-18 Self-Insurance Fund - Workers' Compensation - Fund 62

Retiree Benefits Fund

As part of the collective bargaining agreements and Board policies, the District offers benefits to eligible employees for their post-employment healthcare benefits. Every two years, the District is required to calculate this cost, through an independent actuarial assessment, associated with current employees and retired employees in order to properly record this liability within the District's annual financial statements and to determine the annual funding requirement.

This fund is used to account for the monies transferred in and invested to pay the district's future obligation for retirees' benefits as determined by the actuarial assessments performed. Accounting principles provide that the cost of retiree benefits should be "accrued" over employees' working lifetime. For this reason, the Governmental Accounting Standards Board (GASB) issued in 2004 Accounting Statements 43 and 45 for retiree health benefits. These standards apply to all public employers that pay any part of the cost of retiree health benefits for current or future retirees.

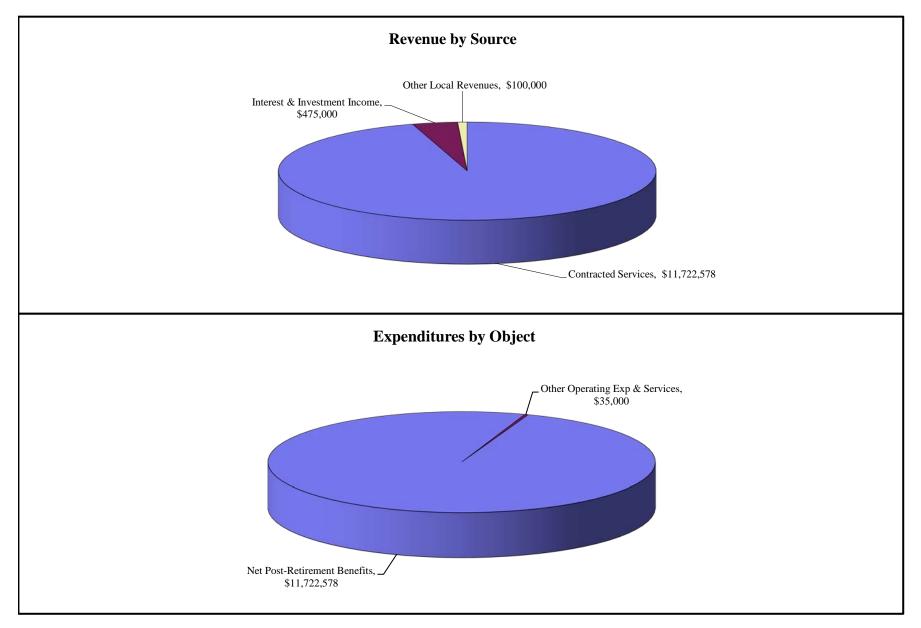

Rather than sequestering the funds in an irrevocable trust, the District accounts for 100% of the cost of the current year premiums for eligible employees as well as the estimated liability, and accumulates deposits within a separate fund of the District.

Cash balance as of June 30, 2017 is \$53,962,281

Associated Students Fund

The Associated Students Fund is designated to account for the monies held in trust by the district for organized student body associations. In a multi-college district, such a fund may be established for each college's student body. This fund is used for raising and expending money to promote the general welfare, morale, and educational experience of the student body.

Representation Fee Trust Fund

The Student Representation Fee Trust Fund is used to account for moneys collected pursuant to *EC* § 76060.5 that provides for a student representation fee if approved by two-thirds of the students voting in the election.

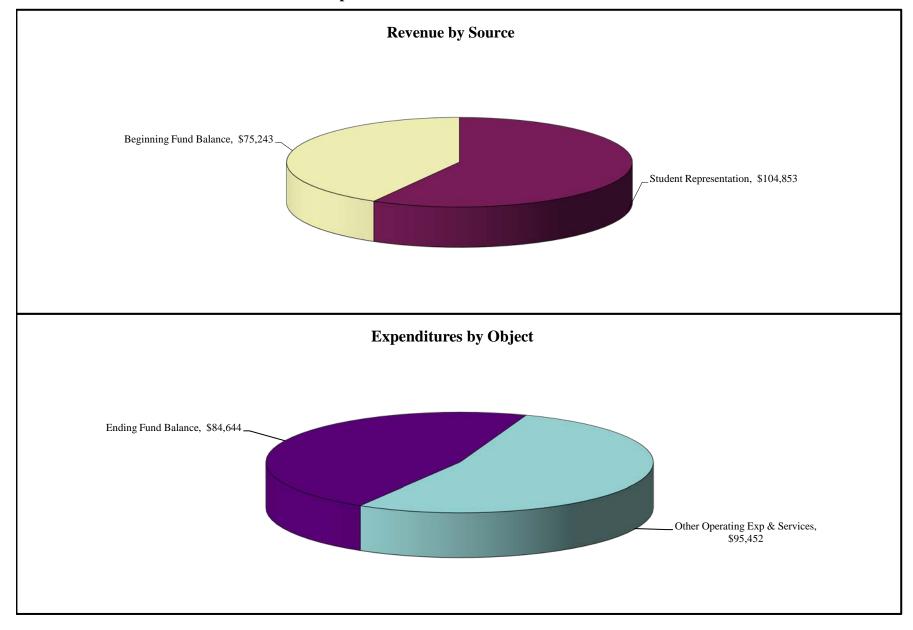

Santiago Canyon College has approved a \$1 fee and Santa Ana College has approved a \$2 fee. The fee is to be expended to provide for the support of governmental affairs representatives who may be stating their positions and viewpoints before city, county, and district governments and before offices and agencies of the State government. Included in the 2016/17 expenditures is \$42,248 accrued as required to be distributed to the Board of Governors under *EC* § 76060.5.

Student Representation Fee Trust Fund moneys shall be expended in accordance with procedures established by the student body with the requirements of EC 76063.

* The District is in stabilization in FY 2016-17 and therefore is in restoration in FY 2017-18. The target included in this recap assumes the District fully restores. Without full restoration, the District will lose ongoing revenue in the current fiscal year.

RANCHO SANTIAGO COMMUNITY COLLEGE DISTRICT UNRESTRICTED GENERAL FUND 2017-18 Adopted Budget Assumptions

July 25, 2017

I. State Revenue

В.

A. Budgeting will continue to utilize the District's Budget Allocation Model (BAM) based on SB 361.

Year		Base	Actual	Funded	Growth
2012/13		27,711.41	28,185.04	28,185.04	1.71%
2013/14		28,185.04	28,688.93	28,688.93	1.79%
2014/15		28,688.93	28,908.08	28,908.08	0.76%
2015/16	P3	28,908.08	28,901.63 a	28,901.63 a	-0.02%
2016/17	P3	28,901.63	27,517.31 ь	28,901.63 b	-4.79%

a - based on submitted P3, small reduction, but slight increase in revenue based on mix of FTES between CR, NC and CDCP b - based on submitted P3, loss of 4.79% FTES

Based on the FTES reported on the 320 submitted at P3, the district has declined by an equivalent of 1,445 FTES. There is not sufficient summer 2017 FTES to borrow and maintain the 2015/16 funding level. Therefore, <u>the district went into stabilization in 2016/17 and will be in restoration in 2017/18</u>. If the district can't fully restore in 2017/18, <u>there will be a permanent reduction in ongoing revenue</u>.

The state budget includes 1% systemwide growth funding, 1.56% COLA, and an additional base allocation increase.

	Change to Budget
Projected COLA of 1.56%	\$2,435,506
Projected Growth/Access (Decline of 4.79%)	(\$1,161,106) (Effective loss of \$7,207,298 in revenue
Projected Base Allocation Increase	\$4,286,638 based on this decline in FTES)
Continued Projected Deficit (est. 0.708%)	\$0
Apportionment Base Incr (Decr) for 2017/18	\$5,561,038
2017/18 Potential Growth at 0.5% based on 1% system	29,046

- C. Education Protection Account (EPA) funding estimated at \$21,022,922 based on 2017/18 Advance. These are not additional funds. The EPA is only a portion of general purpose funds that offsets what would otherwise be state aid in the apportionments. We intend to charge a portion of faculty salaries to this funding source in compliance with EPA requirements.
- Unrestricted lottery is projected at \$146 per FTES (\$4,122,815). Restricted lottery at \$48 per FTES (\$1,355,446). (2016/17 P3 of resident & nonresident factored FTES, 28,238.46 x 146 = \$4,122,815 unrestricted lottery; 28,238.46 x 48 = \$1,355,446.) Slight decrease in unrestricted and slight increase in restricted.
- E. Estimated reimbursement for part-time faculty compensation is estimated at \$599,306 (2017/18 Advance). Slight Increase.
- F. Categorical programs will continue to be budgeted separately; self-supporting, matching revenues and expenditures. COLA is being proposed on certain categorical programs. Without COLA, other categorical reductions would be required to remain in balance if settlements were reached with bargaining groups. The colleges will need to budget for any program match requirements using unrestricted funds.
- G. BOG fee waivers 2% administration funding estimated at 2017/18 Advance of \$307,714. Slight increase.
- H. Mandates Block Grant estimated at a total budget of \$795,000. Unchanged. No additional one-time allocation proposed.
- II. Other Revenue
 - I. Non-Resident Tuition budgeted at \$2,925,000. \$325,000 increase. (SAC \$2,300,000, SCC \$625,000)
 - J. Interest earnings estimated at \$665,000. Increase based on County interest rate and cash balance increase.
 - K. Other miscellaneous income (includes fines, fees, rents, etc.) is estimated at approximately \$350,000. Unchanged.
 - L. Apprenticeship revenue estimated at \$2,757,300. Slight Increase. (Corresponding expenses related to this allocation must be budgeted for additional apprenticeship course offerings)
 - M Scheduled Maintenance/Instructional Equipment allocation \$1.96 million (no match required). Budgeting 30% for Instructional Equipment at \$588,000. The remaining \$1.37 million is budgeted toward estimated \$2 million in one-time costs related to the SCC ADA settlement.
 - N. Energy Efficiency/Prop 39 revenue allocation of \$993,000. Slight decrease from 2016/17.

RANCHO SANTIAGO COMMUNITY COLLEGE DISTRICT UNRESTRICTED GENERAL FUND 2017-18 Adopted Budget Assumptions July 25, 2017

- III. Appropriations and Expenditures
 - A. As the District's budget model is a revenue allocation model, revenues flow through the model to the colleges as earned. The colleges have the responsibility, within their earned revenue, to budget for ALL necessary expenditures including but not limited to all full time and part time employees, utilities, instructional services agreements, multi-year maintenance and other contracts, supplies, equipment and other operating costs.
 - B. The state is providing a Cost of Living Allowance (COLA) of 1.56%. Any collectively bargained increased costs will be added to the budget. The estimated cost of a 1% salary increase is \$1.5 million.
 - C. Step and column movement is budgeted at an additional cost of approximately \$1.2 million including benefits. (FARSCCD approximate cost \$410,000, CSEA approximate cost \$476,000, Management/Other approximate cost \$314,000)
 - D. Health and Welfare benefit premium cost increase as of 1/1/18 is estimated at 3.5% for an additional cost of approximately \$501,000 for active employees and an additional cost of \$170,000 for retirees, for a combined increase of \$671,000.
 State Unemployment Insurance local experience charges are estimated at \$250,000 (2016/17 budgeted amount). Unchanged.
 CalPERS employer contribution rate will increase in 2017/18 from 13.888% to 15.531% for an increase of \$607,948.
 (Note: The cost of each 1% increase in the PERS rate is approximately \$350,000.)
 - CalSTRS employer contribution rate will increase in 2017/18 from 12.58% to 14.43% for an increase of \$1,196,296. (Note: The cost of each 1% increase in the STRS rate is approximately \$700,000.)
 - E. The full-time faculty obligation (FON) for Fall 2017 is estimated at 364.4. The District is currently recruiting to replace 18 faculty vacancies (plus one additional noncredit position which does not count toward the FON). The District expects to meet its obligation. SAC has 13 vacancies and is adding two new positions. SCC is filling five vacancies. The current cost for a new position is budgeted at Class VI, Step 12 at approximately \$144,000. Penalties for not meeting the obligation amount to approximately \$71,000 per FTE not filled.
 - F. The current rate per Lecture Hour Equivalent (LHE) effective 7/1/16 for hourly faculty is \$1,275. Increase of \$26.
 - G. Retiree Health Benefit Fund (OPEB/GASB 45 Obligation) The District will continue to contribute an amount to fund the total actuarially determined Annual Required Contribution (ARC). The ARC increased in 2016/17 by over \$3.3 million from \$8.35 million to a cost of \$11.7 million. This increased cost was covered with one-time funds in 2016/17, but with no new one-time allocation proposed in the state budget, this is now added as an ongoing expense. This will require an increase in the percentage charged to payroll from 1% to 3.63% effective 7/1/17. The unresricted general fund portion of this increase amounts to approximately \$2.6 million.
 - H. Capital Outlay Fund In addition to the state allocation for Scheduled Maintenance/Instructional Equipment, the District will continue to budget \$1.5 million for capital outlay needs.
 - I. Utilities cost increases of 2.5%, estimated at \$100,000.
 - J. Information Technology licensing contract escalation cost of 7%, estimated at \$125,000.
 - K. Property and Liability Insurance transfer estimated at \$1,970,000. Unchanged.
 - L. Other additional DS/Institutional Cost expenses:

Legal Expenses of \$150,000 ongoing

50% Cost of New Sergeant Position \$70,000 ongoing

Interest Expense increase of \$15,000 as offset for additional Interest Earnings in II.J

(Remaining allocation in 2016/17 for executive recruitment will be carried over for Vice Chancellor recruitment in 2017/18)

- M. Child Development Fund The District will continue to budget \$250,000 as an interfund transfer from the unrestricted general fund as a contingency plan. (\$140,000 was transferred in 2014/15 and 2015/16, and expected in 2016/17)
- N. According to the District budget reduction strategy, round 1 ongoing reductions of \$2 million are incorporated in the adopted budget and \$2 million in one-time reductions are incorporated as well.
 \$628,000 is being budgeted for the remaining one-time costs related to the SCC ADA settlement (See II.M above).

Rancho Santiago Community College District Unrestricted General Fund Summary 2017-18 Adopted Budget Assumptions Analysis

July 25, 2017

*	New Revenues		Ongoing Only	One-Time
B B D H J L EGHK	COLA 1.56% Growth (Decline of 4.79%/District in Stabilization) Base Allocation Deficit Factor est. at 0.708% Unrestricted Lottery Mandates Block Grant (one-time) Non-Resident Tuition Interest Earnings Apprenticeship - SCC Misc Income	1	\$2,435,506 (\$1,161,106) \$4,286,638 \$0 (\$19,726) \$0 \$325,000 \$115,000 \$87,015 \$19,945

	2017-18 Budget Year Surplus (Deficit)		(\$1,346,566)	\$25,434

Note: Budget Stabilization Fund Balance at 6/30/2017 is estimated at \$14.5 million.

1 Based on the FTES reported on the 320 submitted at P3, the district has declined by an equivalent of 1,445 FTES. There is not sufficient summer 2017 FTES to borrow and maintain the 2015/16 funding level. Therefore, <u>the district went into stabilization in 2016/17 and will be in restoration in 2017/18</u>. If the district can't fully restore in 2017/18, <u>there will be a permanent reduction in ongoing revenue</u>. This projected loss assumes the same level of FTES generated in 2016/17 plus the same level of summer FTES available for borrowing, leaving a permanent loss of 237 FTES.

Rancho Santiago Community College District Budget Allocation Model Based on SB 361

• The "Rancho Santiago Community College District Budget Allocation Model Based on SB361, February 8, 2012" was approved at the February 22, 2012 Budget Allocation and Planning Review Committee Meeting

Introduction

In 2008, both colleges were visited by ACCJC Accreditation Teams in the normal accreditation cycle. The Teams noticed that the district's budget allocation model that was in place for approximately ten years had not been annually reviewed as to its effectiveness as stated in the model documents. The existing revenue allocation model was developed when the district transformed into a multi college district. The visiting Team recommended a review of the existing budget allocation model and recommended changes as necessary.

The Budget Allocation and Planning Review Committee (BAPR) charged the BAPR Workgroup, a technical subgroup of BAPR, with the task of reviewing the ten year old model. In the process, the Workgroup requested to evaluate other California Community College multi-campus budget allocation models. Approximately twenty models were reviewed. Ultimately, the Workgroup focused on a revenue allocation model as opposed to an expenditure allocation model. A revenue allocation model allocates revenues (state and local) generated in a budget year to the college campuses in the district based on the state funding model that allocates state apportionment revenues to districts. An expenditure allocation model allocates, by agreed upon formulas, expenditure appropriations for full-time faculty staffing, adjunct faculty staffing, classified and administrative staffing, associated health and welfare benefit costs, supply and equipment budgets, utility costs, legal and other services. The BAPR Workgroup ultimately decided on a revenue allocation formula in order to provide the greatest amount of flexibility for the campuses.

Senate Bill 361, passed in 2006, changed the formula of earned state apportionment revenues to essentially two elements, 1) Basic Allocations for college/center base funding rates based on FTES size of the college and center and 2) Full Time Equivalent Students (FTES) based on earned and funded FTES. The BAPR Workgroup determined that since this is how our primary funding comes from the state this model should be used for distribution on earned revenues to the colleges. The colleges and centers are the only entities in the district that generates this type of funding. Revenue earned and funded by the state will be earned and funded at the colleges. The Budget Allocation Model (BAM) described in this document provides the guidelines, formulas, and basic steps for the development of an annual district budget including the allocation of budget expenditure responsibilities for Santa Ana College, Santiago Canyon College and District Services referred to as the three district Budget Centers. The budget is the financial plan for the district, and application of this model should be

utilized to implement the district's vision, mission statement, district strategic plan and the technology strategic plan as well as the colleges' mission statements, educational master plans, facilities master plans and other planning resources. The annual implementation of the budget allocation model is to be aligned with all of these plans. To ensure that budget allocation is tied to planning, it is the responsibility of District Council to review budget and planning during the fiscal year and, if necessary, recommend adjustments to the budget allocation model to keep the two aligned for the coming year. The Chancellor and the Board of Trustees are ultimately responsible for the annual budget and the expenditures associated with the budget. In February of 2013, the Board of Trustees adopted a new planning design manual. This document eliminated BAPR and created the Fiscal Resources Committee (FRC). FRC is responsible for recommending the annual budget to the District Council for its recommendation to the Chancellor and Board of Trustees. FRC is also responsible for annual review of the model for accreditation and can recommend any modifications to the guidelines.

The goal of the BAM is to create a documented revenue allocation process that provides financial stability and encourages fiscal accountability at all levels in times of either increasing or decreasing revenue streams. It is also intended to be simple, transparent, easy to understand, fair, predictable and consistent, using quantitative, verifiable factors with performance incentives. District Council should conduct a review(s) during each fiscal year to assess if the operation of the budget allocation model is meeting the goal.

Under state law, the District is the legal entity and is ultimately responsible for actions, decisions and legal obligations of the entire organization. The Board of Trustees of the Rancho Santiago Community College District has clear statutory authority and responsibility and, ultimately, makes all final decisions. Likewise, the Chancellor, under the direction of the Board of Trustees, is responsible for the successful operation, reputation, and fiscal integrity of the entire District. The funding model does not supplant the Chancellor's role, nor does it reduce the responsibility of the District Services staff to fulfill their fiduciary role of providing appropriate oversight of the operations of the entire District. It is important that guidelines, procedures and responsibility be clear with regard to District compliance with any and all laws and regulations such as the 50% Law, full-time/part-time faculty requirements, Faculty Obligation Number (FON), attendance accounting, audit requirements are to be maintained by District Services, which has a responsibility to provide direction and data to the colleges to assure they have appropriate information for decision making with regard to resource allocation at the local level, thus, assuring District compliance with legal and regulatory requirements.

All revenue is considered District revenue because the district is the legal entity authorized by the State of California to receive and expend income and to incur expenses. However, the majority of revenue is provided by the taxpayers of California for the sole purpose of providing educational services to the communities and students served by the District. Services such as classes, programs, and student services are, with few exceptions, the responsibility of the colleges. It is the intent of the Revenue Allocation Model to allocate the majority of funds to the colleges in order to provide those educational services. The model intends to provide an opportunity to maximize resource allocation decisions at the local college level. Each college president is responsible for the successful operation and performance of his/her college as it relates to resource allocation and utilization. The purpose and function of the District Services in this structure is to maintain the fiscal and operational integrity of the District and its individual colleges and centers and to facilitate college operations so that their needs are met and fiscal stability is assured. District Services has responsibility for providing certain centralized functions, both to provide efficient operations as well as to assist in coordination between District Services and the colleges. Examples of these services include human resources, business operations, fiscal and budgetary oversight, procurement, construction and capital outlay, and information technology. On the broadest level, the goal of this partnership is to encourage and support collaboration between the colleges and District Services.

Implementation

A detailed transition plan for the implementation of the new BAM should include:

- Standards and milestones for the initial year
- An evaluation process to determine if the standards and milestones have been achieved or if there is adequate progress
- A process to ensure planning is driving the budget

The 2012-2013 fiscal year is the transitional year from the old budget allocation model to the new SB 361 model. Essentially, the first year (2012-2013) of the new model is a rollover of expenditure appropriations from the prior year 2011-2012. Therefore the 2011/12 ending balance funds are used on a one time basis to cover the structural deficit spending in the 2012/13 fiscal year.

An SB 361 Budget Allocation Model Implementation Technical Committee (BAMIT) was established by the Budget Allocation and Planning Review Committee (BAPR) and began meeting in April 2012. The team included:

District Office:	
Peter Hardash	Vice Chancellor, Business Operations/Fiscal Services
John Didion	Executive Vice Chancellor
Adam O'Connor	Assistant Vice Chancellor, Fiscal Services
Gina Huegli	Budget Analyst
Thao Nguyen	Budget Analyst
Santa Ana College:	
Linda Rose	Vice President, Academic Affairs
Jim Kennedy	Interim Vice President, Administrative Services
Michael Collins	Vice President, Administrative Services
Santiago Canyon College:	
Aracely Mora	Vice President, Academic Affairs
Steve Kawa	Vice President, Administrative Services

BAMIT was tasked with evaluating any foreseeable implementation issues transitioning from the old model and to make recommendations on possible solutions.

The team spent the next five months meeting to discuss and agree on recommendations for implementing the transition to new model using a series of discussion topics. These agreements are either documented directly in this model narrative or included in an appendix if the topic was related solely to the transition year.

It was also agreed by BAMIT that any unforeseen issue that would arise should be brought back to FRC for review and recommendation.

Revenue Allocation

The SB 361 funding model essentially allocates revenues to the colleges in the same manner as received by the District from the State of California. This method allocates all earned revenues to the colleges.

College and District Services Budgets and Expenditure Responsibilities

Since the BAM is a revenue allocation model, all expenditures and allocation of revenues under the model are the responsibilities of the colleges and centers. Expenditure responsibilities for the colleges, District Services and Institutional Costs are summarized in Table 1.

Revenue and budget responsibilities are summarized on Table 2. The total annual revenue to each college will be the sum of base funding for each college and center as defined by SB 361 and applying the current FTES rates for credit base, noncredit base, career development and college preparation noncredit base revenues as well as any local unrestricted or restricted revenues earned by the college.

The revenue allocations will be regularly reviewed by FRC. In reviewing the allocation of general funds, FRC should take into consideration all revenues, including restricted revenues, available to each of the Budget Centers less any apportionment deficits, property tax shortfalls or uncollected student fees or shortfalls. If necessary, FRC will recommend adjustments to District Council for submission to the Chancellor.

The expenditures allocated for District Services and for Institutional Costs will be developed based on the projected levels of expenditure for the prior fiscal year, taking into account unusual or one-time anomalies, reviewed by FRC and the District Council and approved by the Chancellor and the Board of Trustees.

DISTRICT SERVICES – Examples are those expenses associated with the operations of the Chancellor's Office, Board of Trustees, Public Affairs, Human Resources, Risk Management, Educational Services, Institutional Research, Business Operations, Internal Auditing, Fiscal Services, Payroll, Purchasing, Facilities Planning, ITS and Safety Services. Economic Development expenditures are to be included in the District Services budget but clearly delineated from other District expenditures.

INSTITUTIONAL COSTS – Examples are those expenses associated with State and Federal regulatory issues, property, liability and other insurances, board election, interfund transfers and Retiree Health Benefit Costs. As the board election expense is incurred every other year, it will be budgeted each year at one-half of the estimated cost. In the off years, the funds will remain unspent and specifically carried over to the next year to be used solely for the purpose of the election expense. If there is insufficient budget, the colleges will be assessed the difference based on the current FTES split. If any funds remain unspent in an election year, it will be allocated to the colleges based on the current FTES split for one-time uses.

An annual review of District Services and Institutional Costs will be conducted by District Council each fall in order to give time to complete the evaluation in time to prepare for the following fiscal year budget cycle and implement any suggestions. The review will include an evaluation of the effectiveness of the services provided to assure the District is appropriately funded. If District Council believes a change to the allocation is necessary, it will submit its recommendation to FRC for funding consideration and recommendation to the Chancellor.

District Reserves and Deficits

The Board of Trustees will establish a reserve through board policy, state guidelines and budget assumptions.

The Chancellor reserves the right to adjust allocations as necessary.

The Board of Trustees is solely responsible for labor negotiations with employee groups. Nothing in this budget model shall be interpreted to infringe upon the Board's ability to collectively bargain and negotiate in good faith with employee organizations and meet and confer with unrepresented employees.

College Budget and Expenditure Responsibilities

Colleges will be responsible for funding the current programs and services that they operate as part of their budget plans. There are some basic guidelines the colleges must follow:

- Allocating resources to achieve the state funded level of FTES is a primary objective for all colleges.
- Requirements of the collective bargaining agreements apply to college level decisions.
- The FON (Faculty Obligation Number) must be maintained by each college. Full-time faculty hiring recommendations by the colleges are monitored on an institutional basis. Any financial penalties imposed by the state due to FON non-compliance will be borne proportionately by the campus not in compliance.
- In making expenditure decisions, the impact upon the 50% law calculation must be considered and budgeted appropriately. Any financial penalties imposed by the state due to 50% law non-compliance will be borne proportionally (by FTES split) by both campuses.
- With unpredictable state funding, the cost of physical plant maintenance is especially important. Lack of maintenance of the operations and district facilities and grounds will have a significant impact on the campuses and therefore needs to be addressed with a detailed plan and dedicated budget whether or not funds are allocated from the state.

Budget Center Reserves and Deficits

At the Adopted Budget each college shall set aside a contingency reserve in the Unrestricted General Fund equal to a minimum of 1% of its total current year budgeted Fund 11 expenditures to handle unforeseen expenses. If the contingency reserve is unspent by fiscal year end, the college reserve rolls over into the colleges' beginning balance for the following fiscal year. The District Services and Institutional Cost allocations are budgeted as defined in the model for the appropriate operation of the district and therefore are not subject to carryover, unless specifically delineated. The Chancellor and Board of Trustees reserve the right to modify the budget as deemed necessary.

If a college incurs an overall deficit for any given year, the following sequential steps will be implemented:

The college reserve shall first be used to cover any deficit (structural and/or one-time). If reserves are not sufficient to cover the deficit, then the college is to prepare an immediate expenditure reduction plan that covers the amount of deficit along with a plan to replenish the 1% minimum reserve level. Once the college reserve has been exhausted, in circumstances when any remaining deficit is greater than 1.5% of budgeted Fund 11 expenditures, and a reduction plan has been prepared up to the 1.5% level, the college may request a temporary loan from District Reserves. The request, including a proposed payback period, should be submitted to FRC for review. If FRC supports the request, it will forward the recommendation to District Council for review and recommendation to the Chancellor who will make the final determination.

Revenue Modifications

Apportionment Revenue Adjustments

It is very likely each fiscal year that the District's revenues from state apportionment could be adjusted after the close of the fiscal year in the fall, but most likely at the P1 recalculation, which occurs eight months after the close of the fiscal year. This budget model therefore will be fluid, with changes made throughout the fiscal year (P-1, P-2, P-annual) as necessary. Any increase or decrease to prior year revenues is treated as a onetime addition or reduction to the colleges' current budget year and distributed in the model based on the most up to date FTES

split reported by the District and funded by the state.

An example of revenue allocation and FTES change:

\$100,000,000 is originally split 70% Santa Ana College (\$70,000,000) and 30% Santiago Canyon College (\$30,000,000) based on FTES split at the time. At the final FTES recalculation for that year, the District earns an additional \$500,000 based on the total funded FTES. In addition, the split of FTES changes to 71%/29%. The total revenue of \$100,500,000 is then redistributed \$71,355,000 to Santa Ana College and \$29,145,000 to Santiago Canyon College which would result in a shift of \$855,000 between the colleges. A reduction in funding will follow the same calculation.

It is necessary in this model to set a base level of FTES for each college. Per agreement by the Chancellor and college Presidents, the base FTES split of 70.80% SAC and 29.20% SCC will be utilized for the 2013/14 tentative budget. Similar to how the state sets a base for district FTES, this will be the beginning base level for each college. Each year through the planning process there will be a determination made if the district has growth potential for the coming fiscal year. Each college will determine what level of growth they believe they can achieve and targets will be discussed and established through Chancellor's Cabinet. For example, if the district believes it has the opportunity for 2% growth, the colleges will determine the level of growth they wish to pursue. If both colleges decide to pursue and earn 2% growth and the district is funded for 2% growth, then each college's base would increase 2% the following year. In this case the split would still remain 70.80%/29.20% as both colleges moved up proportionately (Scenario #1). If instead, one college decides not to pursue growth and the other college's base and earns the entire district 2% growth, all of these FTES will be added to that college's base and therefore its base will grow more than 2% and the split will then be adjusted (Scenario #2).

Using this same example in which the district believes it has the opportunity for 2% growth, and both colleges decide to pursue 2% growth, however one college generates 3% growth and the other generates 2%, the college generating more FTES would have unfunded over cap FTES. The outcome would be that each college is credited for 2% growth, each base increases 2% and the split remains (Scenario #3). If instead, one college generates 3% and the other college less than 2%, the college generating the additional FTES can earn its 2% target plus up to the difference between the other college's lost FTES opportunity and the total amount funded by the district (Scenario #4).

This model should also include a stability mechanism. In a year in which a college earns less FTES than its base, the base FTES will remain intact following the state method for stabilization. That college is in funding stability for <u>one year</u>, but has up to three years in which to earn back to its base FTES. The funding for this stability will be from available district Budget Stabilization Funds. If this fund has been exhausted, the Chancellor will determine the source of funding. If the college does not earn back to its base during this period, then the new lower FTES base will be established. As an example (Scenario #5), year one there is 2% growth opportunity. One of the colleges earns 2% growth but the other college declines by 1%, going into stability. This year the college that declined is held at their base level of FTES while the other college is credited for their growth. In the second year of the example, there is no growth opportunity, but the college that declined recaptures FTES to the previous year base to emerge from stability. Note that since the other college grew in year one, the percentage split has now changed.

All of these examples exclude the effect of statewide apportionment deficits. In the case of any statewide deficits, the college revenues will be reduced accordingly. In addition, the Chancellor reserves the right to make changes to the base FTES as deemed necessary in the best interest of the district as a whole.

Allocation of New State Revenues

Growth Funding: Plans from the Planning and Organizational Effectiveness Committee (POE) to seek growth funding requires FRC recommendation and approval by the Chancellor, and the plans should include how growth funds will be distributed if one of the colleges does not reach its growth target. A college seeking the opportunity for growth funding will utilize its own carryover funds to offer a schedule to achieve the desired growth. Once the growth has been confirmed as earned and funded by the state and distributed to the district, the appropriate allocation will be made to the college(s) generating the funded growth back through the model. Growth/Restoration Funds will be allocated to the colleges when they are actually earned.

Revenues which are not college specific (for example, student fees that cannot be identified by college), will be allocated based on total funded FTES percentage split between the campuses.

After consultation with district's independent audit firm, the implementation team agreed that any unpaid uncollected student fees will be written off as uncollectible at each year end. This way, only actual collected revenues are distributed in this model. At P-1, P-2 and P-annual, uncollected fee revenues will be adjusted.

Due to the instability of revenues, such as interest income, discounts earned, auction proceeds, vendor rebates (not including utility rebates which are budgeted in Fund 41 for the particular budget center), revenues from these sources will **not** be part of the revenue allocation formula. Income derived from these sources will be deposited to the institutional reserves. The-ongoing state allocation for the Mandates Block Grant will be allocated to the colleges through the model. Any one-time Mandates allocations received from the state will be discussed by FRC and recommendations will be made for one-time uses.

Cost of Living Adjustments: COLAs included in the tentative and adopted budgets shall be sequestered and not allocated for expenditure until after collective bargaining for all groups have been finalized.

Lottery Revenue: Income for current year lottery income is received based on the prior fiscal year's FTES split. At Tentative Budget, the allocation will be made based on projected FTES without carryover. At Adopted Budget, final FTES will be used and carryovers will be included.

Other Modifications

Salary and Benefits Cost

All authorized full time and ongoing part time positions shall be budgeted with corresponding and appropriate fixed cost and health and welfare benefits. Vacant positions will be budgeted at the beginning of the fiscal year or when newly created at the ninth place ranking level (Class VI, Step 10) for full-time faculty and at the mid-level for other positions (ex. Step 3 for CSEA, Step 4 for Management, and AA step 6 for teachers and BA step 6 for master teachers in child development), with the district's contractual cap for the health and welfare benefits. The full cost of all positions, regardless of the budgeted amount, including step and column movement costs, longevity increment costs and any additional collective bargaining agreement costs, will be charged to the particular Budget Center. The colleges are responsible for this entire cost, including any increases or adjustments to salary or benefits throughout the year. If a position becomes vacant during a fiscal year, the Budget Center has the discretion to move unused and available budget from the previous employee's position for other one-time costs until filled or defunded. Any payoffs of accrued vacation, or any additional costs incurred at separation from employment with the district, will be borne by the particular Budget Center. When there is a vacancy that won't be filled immediately, Human Resources regarding the FON when recommending to defund faculty positions.

Grants/Special Projects

Due to the timeliness issues related to grants, approvals rest with the respective Chancellor's Cabinet member, through established processes, in all cases except for Economic Development grants in which a new grant opportunity presents itself which requires an increase to the District Office budget due to match or other unrestricted general fund cost. In these cases, the grant will be reviewed by Chancellor's Cabinet with final approval made by the Chancellor.

Some grants allow for charges of indirect costs. These charges will accumulate by Budget Center during each fiscal year. At fiscal year end, once earned, each college will be allocated 100% of the total indirect earned by that college and transferred into Fund 13 the following year to be used for one-time expenses. The indirect earned by district projects will roll into the institutional ending fund balance with the exception of the District Educational Services grants. In order to increase support services and resources provided to the colleges and to acknowledge the additional costs associated with administering grants, any accumulated indirect generated from these grants will be distributed as follows: 25% will roll into the institutional ending fund balance, 25% will offset the overall District Services expenditures in that given year, and 50% will carryover specifically in a Fund 13 account under Educational Services to be used for one-time expenses to increase support services to the colleges.

It is the district's goal to fully expend grants and other special project allocations by the end of the term, however sometimes projects end with a small overage or can be under spent. For any overage or allowable amount remaining, these amounts will close into the respective Budget Center's Fund 13 using 7200 transfers.

Banked LHE Load Liability

Beginning in 2012/13, the liability for banked LHE will be accounted for in separate college accounts. The cost of faculty banking load will be charged to the college during the semester the course is taught and added to the liability. When an instructor takes banked leave, they will be paid their regular salary and district office will make a transfer from the liability to the college 1300 account to pay the backfill cost of teaching the load. A college cannot permanently fill a faculty position at the time someone takes their final year or semester off before retirement. Filling a vacancy cannot occur until the position is actually vacant. In consultation with Human Resources and Fiscal Services, a college can request to swap another faculty vacancy they may have in another discipline or pay the cost differential if they determine programmatically it needs to be filled sooner.

This method will appropriately account for the costs of each semester offerings and ensure an appropriate liability. Although the liability amounts will be accounted for by college, only District Fiscal Services will be able to make transfers from these accounts. Each year end a report will be run to reconcile the total cost of the liability and if any additional transfers are required, the colleges will be charged for the differences.

Other Possible Strategic Modifications Summer FTES

There may be times when it is in the best financial interest of the District to shift summer FTES between fiscal years. When this occurs, the first goal will be to shift FTES from both colleges in the same proportion as the total funded FTES for each of the colleges. If this is not possible, then care needs to be exercised to ensure that any such shift does not create a disadvantage to either college. If a disadvantage is apparent, then steps to mitigate this occurrence will be addressed by FRC.

Borrowing of summer FTES is not a college-level decision, but rather it is a District-level determination. It is not a mechanism available to individual colleges to sustain their internal FTES levels.

Long-Term Plans

<u>Colleges:</u> Each college has a long-term plan for facilities and programs. The Chancellor, in consultation with the Presidents, will evaluate additional funding that may accrue to the colleges beyond what the model provides. The

source of this funding will also have to be identified.

Santa Ana College utilizes the Educational Master Plan in concert with the SAC Strategic Plan to determine the long-term plans for the college. Long-term facilities plans are outlined in the latest Facilities Master Plan, and are rooted in the Educational Master Plan. SAC links planning to budget through the use of the SAC Comprehensive Budget Calendar, which includes planning milestones linked to the college's program review process, Resource Allocation Request (RAR) process, and to the District's planning and budget calendar. As a result of the Program Review Process, resource allocation needs are requested via the RAR process, which identifies specific resources required to achieve specific intended outcomes. The budget augmentation requests are then prioritized at the department, division, and area level in accordance with established budget criteria. The college's Planning and Budget Committee reviews the prioritized RARs, and they are posted to the campus Planning and Budget web page for the campus community to review. As available resources are realized, the previously prioritized RAR are funded.

At Santiago Canyon College, long-term plans are developed similarly to short-term plans, and exist in a variety of interconnected processes and documents. Department Planning Portfolios (DPP) and Program Reviews are the root documents that form the college's Educational Master Plan and serve to align planning with resource allocation. The allocation of resources is determined through a formal participatory governance process. The Planning and Institutional Effectiveness (PIE) committee is the participatory governance committee that is charged with the task of ensuring resource allocation is tied to planning. Through its planning cycle, the PIE committee receives resource requests from all college units and ensures that each request aligns with the college mission, college goals, program reviews, and DPPs. All requests are then ranked by the PIE committee, placed on a college-wide prioritized list of resource requests, and forwarded to the college budget committee for review. If the budget committee identifies available funds, those funds are noted on the prioritized list, and sent back to the PIE committee. The PIE committee then forwards the prioritized list, along with the budget committee's identification of available funds, to College Council for approval of the annual budget.

<u>District Services</u>: District Services and Institutional Costs may also require additional funding to implement new initiatives in support of the colleges and the district as a whole. POE will evaluate budget augmentation requests and forward a recommendation to District Council. District Council may then refer such requests to FRC for funding consideration.

Full-Time Faculty Obligation Number (FON)

To ensure that the District complies with the State required full-time Faculty Obligation Number (FON), the Chancellor will establish a FON for each college. Each college shall be required to fund at least that number of full-time faculty positions. If the District falls below the FON and is penalized, the amount of the penalty will be deducted from the revenues of the college(s) causing the penalty. FRC, along with the District Enrollment Management Committee, should regularly review the FON targets and actuals and determine if any budget adjustment is necessary. If an adjustment is needed, FRC should develop a proposal and forward it to POE Committee for review and recommendation to the Chancellor.

Budget Input

Using a system for Position Control, Fiscal Services will budget 100% of all regular personnel cost of salary and benefits, and notify the Budget Centers of the difference between the computational total budget from the Budget Allocation Model and the cost of regular personnel. The remaining line item budgets will roll over from one year to the next so the Budget Centers are not required to input every line item. The Budget Centers can make any allowable budget changes at their discretion and will also be required to make changes to reconcile to the total allowable budget per the model.

Rancho Santiago Community College District Budget Allocation Model Based on SB 361

Appendix A – Definition of Terms

AB 1725 – Comprehensive California community college reform legislation passed in 1988, that covers community college mission, governance, finance, employment, accountability, staff diversity and staff development.

Accreditation – The review of the quality of higher education institutions and programs by an association comprised of institutional representatives. The Accrediting Commission for Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges (WASC) accredits California's community colleges.

Apportionments – Allocations of state or federal aid, local taxes, or other monies among school districts or other governmental units. The district's base revenue provides most of the district's revenue. The state general apportionment is equal to the base revenue less budgeted property taxes and student fees. There are other smaller apportionments for programs such as apprenticeship and EOPS.

Augmentation – An increased appropriation of budget for an intended purpose.

Bank Leave – Faculty have the option to "bank" their beyond contract teaching load instead of getting paid during that semester. They can later request a leave of absence using the banked LHE.

BAM – Budget Allocation Model.

BAPR – Budget and Planning Review Committee.

Base FTES – The amount of funded actual FTES from the prior year becomes the base FTES for the following year. For the tentative budget preparation, the prior year P1 will be used. For the proposed adopted budget, the prior year P2 will be used. At the annual certification at the end of February, an adjustment to actual will be made.

Budget Center – The three Budget Centers of the district are Santa Ana College, Santiago Canyon College and the District Services.

Budget Stabilization Fund – The portion of the district's ending fund balance, in excess of the 5% reserve, budget center carryovers and any restricted balances, used for one-time needs in the subsequent year.

Cap – An enrollment limit beyond which districts do not receive funds for additional students.

Capital Outlay – Capital outlay expenditures are those that result in the acquisition of, or addition to, fixed assets. They are expenditures for land or existing buildings, improvement of sites, construction of buildings, additions to buildings, remodeling of buildings, or initial or additional equipment. Construction-related salaries and expenses are included.

Categorical Funds – Money from the state or federal government granted to qualifying districts for special programs, such as Matriculation or Vocational Education. Expenditure of categorical funds is restricted to the fund's particular purpose. The funds are granted to districts in addition to their general apportionment.

Center – An off-campus site administered by a parent college that offers programs leading to certificates or degrees that are conferred by the parent institution. The district centers are Centennial Education Center and Orange Education Center.

COLA – Cost of Living Adjustment allocated from the state calculated by a change in the Consumer Price Index (CPI).

College Reserve – College-specific one-time funds set aside to provide for estimated future expenditures or deficits, for working capital, economic uncertainty, or for other purposes.

Ending Fund Balance – Defined in any fiscal year as Beginning Fund Balance plus total revenues minus total expenditures. The Ending Fund Balance rolls over into the next fiscal year and becomes the Beginning Fund Balance. It is comprised of College Reserves, Institutional Reserves and any other specific carryovers as defined in the model or otherwise designated by the Board.

Defund – Permanently eliminating a position and related cost from the budget.

Fifty Percent Law (**50% Law**) – Section 84362 of the Education Code, commonly known as the 50% Percent Law, requires each community college district to spend at least half of its "current expense of education" each fiscal year on the "salaries of classroom instructors." Salaries include benefits and salaries of instructional aides.

Fiscal Year – Twelve calendar months; in California, it is the period beginning July 1 and ending June 30. Some special projects use a fiscal year beginning October 1 and ending September 30, which is consistent with the federal government's fiscal year.

FON – Faculty Obligation Number, the number of full time faculty the district is required to employ as set forth in title 5, section 53308.

FRC – Fiscal Resources Committee.

FTES – Full Time Equivalent Students. The number of students in attendance as determined by actual count for each class hour of attendance or by prescribed census periods. Every 525 hours of actual attendance counts as one FTES. The number 525 is derived from the fact that 175 days of instruction are required each year, and students attending classes three hours per day for 175 days will be in attendance for 525 hours ($3 \times 175 = 525$).

Fund 11 – The unrestricted general fund used to account for ongoing revenue and expenditures.

Fund 12 – The restricted general fund used to account for categorical and special projects.

Fund 13 – The unrestricted general fund used to account for unrestricted carryovers and one-time revenues and expenses.

Growth – Funds provided in the state budget to support the enrollment of additional FTE students.

In-Kind Contributions – Project-specific contributions of a service or a product provided by the organization or a third-party where the cost cannot be tracked back to a cash transaction which, if allowable by a particular grant, can be used to meet matching requirements if properly documented. In-kind expenses generally involve donated labor or other expense.

Indirect Cost – Indirect costs are institutional, general management costs (i.e., activities for the direction and control of the district as a whole) which would be very difficult to be charged directly to a particular project.

General management costs consist of administrative activities necessary for the general operation of the agency, such as accounting, budgeting, payroll preparation, personnel services, purchasing, and centralized data processing. An indirect cost rate is the percentage of a district's indirect costs to its direct costs and is a standardized method of charging individual programs for their share of indirect costs.

Institutional Reserve – Overall districtwide one-time funds set aside to provide for estimated future expenditures or deficits, for working capital, economic uncertainty, or for other purposes. The Institutional Reserve consists of the Board Policy Contingency, the Budget Stabilization Fund, and any other contingency fund held at the institutional level over and above the College Reserves.

LHE – Lecture Hour Equivalent. The standard instructional work week for faculty is fifteen (15) LHE of classroom assignments, fifteen (15) hours of preparation, five (5) office hours, and five (5) hours of institutional service. The normal teaching load for faculty is thirty (30) LHE per school year.

Mandated Costs – District expenses which occur because of federal or state laws, decisions of federal or state courts, federal or state administrative regulations, or initiative measures.

Modification – The act of changing something.

POE – Planning and Organizational Effectiveness Committee.

Proposition 98 – Proposition 98 refers to an initiative constitutional amendment adopted by California's voters at the November 1988 general election which created a minimum funding guarantee for K-14 education and also required that schools receive a portion of state revenues that exceed the state's appropriations limit.

Reserves – Funds set aside to provide for estimated future expenditures or deficits, for working capital, economic uncertainty, or for other purposes. Districts that have less than a 5% reserve are subject to a fiscal 'watch' to monitor their financial condition.

SB 361 – The New Community College Funding Model (Senate Bill 361), effective October 1, 2006, includes funding base allocations depending on the number of FTES served, credit FTES funded at an equalized rate, noncredit FTES funded at an equalized rate, and enhanced noncredit FTES funded at an equalized rate. The intent of the formula is to provide a more equitable allocation of system wide resources, and to eliminate the complexities of the previous Program Based Funding model while still retaining focus on the primary component of that model, instruction. In addition, the formula provides base operational allocations for colleges and centers scaled for size.

Seventy-five/twenty-five (75/25) – Refers to policy enacted as part of AB 1725 that sets 75 percent of the hours of credit instruction as a goal for classes to be taught by full-time faculty.

Target FTES – The estimated amount of agreed upon FTES the district or college anticipates the opportunity to earn growth/restoration funding during a fiscal year.

Title 5 – The portion of the California Code of Regulations containing regulations adopted by the Board of Governors which are applicable to community college districts.

1300 accounts – Object Codes 13XX designated to account for part time teaching and beyond contract salary cost.

7200 Transfers – Intrafund transfers made between the restricted and unrestricted general fund to close a categorical or other special project at the end of the fiscal year or term of the project.

Rancho Santiago Community College District Sound Fiscal Management Self-Assessment Checklist 2017/2018

1. Deficit Spending - Is this area acceptable? YES

Is the district spending within their revenue budget in the current year? Yes, with the additional base allocation increases the last few years, the district has not been deficit spending. The 2017/18 Adopted Budget for the unrestricted general fund is also balanced with the inclusion of \$2 million in one-time budget reductions. The Multi-Year Projections (MYP), however, show deficit spending in future years due to large anticipated cost increases such as PERS, STRS, and Health Benefits. The Budget Stabilization Fund has approximately \$14.6 million. Once one-time budget stabilization funds are exhausted, significant reductions in unrestricted current year ongoing costs will be necessary to bring costs in line with current year revenue.

Has the district controlled deficit spending over multiple years? Yes, due mostly to the infusion of base allocation increases in 2015/16, 2016/17 and 2017/18 along with \$2 million in ongoing budget reductions and \$2 million in one-time budget reductions.

Is deficit spending addressed by fund balance, ongoing revenue increases, or expenditure reductions? With the infusion of ongoing resources allocated in the state budget in 2015/16 and 2016/17 there was no deficit spending. In 2017/18 an additional base allocation along with expenditure reductions help address the projected deficit spending. There is concern in future years without additional revenue increases due to expected cost increases.

Are district revenue estimates based upon past history? **Revenue estimates are based on a number of factors including State Chancellor's Office and Department of Finance estimates and local revenue estimates which are evaluated each year.** Does the district automatically build in growth revenue estimates? **No, FTES restoration and growth opportunities must be carefully considered and earned before the revenue is budgeted.**

2. Fund Balance – Is this area acceptable? YES

Is the district's fund balance stable or consistently increasing? The fund balance has stabilized due to the large infusion of state funds, both one-time and ongoing base allocations, over the past few years and remains above the minimum 5% reserve level. The MYP shows that with increases in cost of PERS, STRS, and health and welfare benefits, the fund balance is anticipated to erode commencing in 2018/19 without further budget reductions.

Is the fund balance increasing due to on-going revenue increases and/or expenditure reductions? The fund balance is not projected to increase.

3. Enrollment - Is this area acceptable? NO

Has the district's enrollment been increasing or stable for multiple years? No, the district had a slight reduction in FTES in 2015/16 and a large decline of 4.79% in 2016/17. The district went into stabilization at the end of 2016/17 and is in restoration in 2017/18.

Are the district's enrollment projections updated at least semiannually? Yes.

Are staffing adjustments consistent with the enrollment trends? The colleges manage enrollment trends and budget for staffing.

Does the district analyze enrollment and full time equivalent students (FTES) data? The district office prepares 320 reports for submission to the State Chancellor's Office on behalf of the colleges and centers. The colleges are responsible to manage and analyze enrollment and FTES data.

Does the district track historical data to establish future trends between P-1 and annual for projection purposes? The district prepares FTES information in spreadsheets for the colleges to utilize for their planning.

Has the district avoided stabilization funding? In the past several years, yes, however the district went into stabilization in 2016/17.

4. Unrestricted General Fund Balance - Is this area acceptable? YES

Is the district's unrestricted general fund balance consistently maintained at or above the recommended minimum prudent level (5% of the total unrestricted general fund expenditures)? Yes, the unrestricted ending fund balance has not been below 8% since 2006/07.

Is the district's unrestricted fund balance maintained throughout the year? Yes.

Page 1 of 3

5. Cash Flow Borrowing - Is this area acceptable? YES

Can the district manage its cash flow without interfund borrowing? Yes. Currently the district is managing its cash flow without the need for interfund borrowing.

Is the district repaying TRANS and/or borrowed funds within the required statutory period? N/A

6. Bargaining Agreements - Is this area acceptable? YES/NO

Has the district settled bargaining agreements within new revenue sources during the past three years? Yes and no, salary and benefit cost increases have been negotiated in excess of COLA even though total compensation (COLA, health and Welfare, step and column movement, STRS/PERS cost, etc.) increases well exceed new unrestricted revenues. However, increased base allocations have partially offset these ongoing increases. The faculty collective bargaining agreement includes a 9th place ranking formula that contractually requires salary adjustments regardless of new revenue sources. All bargaining agreements also have an automatic health benefit increase cap of 6% that the district is required to fund regardless of new revenue sources.

Did the district conduct a pre-settlement analysis identifying an ongoing revenue source to support the agreement? Fiscal Services prepares a total compensation cost analysis after the negotiated settlement. One-time Budget Stabilization Funds are currently available to offset ongoing compensation cost increases in excess of new revenues, but once exhausted, significant reductions will need to be made.

Did the district correctly identify the related costs? Both the salary and related benefits costs were identified after settlements.

Did the district address budget reductions necessary to sustain the total compensation increase? Yes and no, new base allocation increases, ongoing budget reductions and one-time budget reductions were made to offset ongoing compensation cost increases. Future ongoing reductions will be necessary to maintain a balanced budget without additional ongoing unrestricted revenue sources or other expenditure reductions.

7. Unrestricted General Fund Staffing - Is this area acceptable? NO

Is the district ensuring it is not using one-time funds to pay for permanent staff or other ongoing expenses? In 2015/16 and 2016/17 with the infusion of additional unrestricted ongoing funds from the state, the colleges budgeted for all projected personnel costs and do not expect deficit spending. The Adopted Budget in 2017/18 anticipates an ongoing budget deficit that is offset with one-time budget reductions to balance the current year budget. There is however concern in future years without additional ongoing revenue increases due to expected cost increases such as PERS, STRS, and Health Benefits.

Is the percentage of district general fund budget allocated to salaries and benefits at or less than the statewide average (i.e. the statewide average for 2003-04 is 85%)? No. The ongoing unrestricted general fund for 2016/17 actual expense percentage ended the year at 86%. The Adopted Budget for 2017/18 is also budgeted at 86%.

8. Internal Controls - Is this area acceptable? YES

Does the district have adequate internal controls to insure the integrity of the general ledger? Yes.

Does the district have adequate internal controls to safeguard the district's assets? Yes.

Both of these are evidenced by unmodified audit opinions with no material weaknesses or significant deficiencies noted recently, with only minor federal and state compliance issues noted.

9. Management Information Systems - Is this area acceptable? YES

Is the district data accurate and timely? Yes.

Are the county and state reports filed in a timely manner? Yes.

Are key fiscal reports readily available and understandable? Yes.

10. Position Control – Is this area acceptable? NO

Is position control integrated with payroll? No. The district has been in the process of creating and programming a position control system for numerous years with very little progress. Phase I went live in 2012/13 and includes only a salary encumbrance system for contractual staff salaries. A consultant has been engaged for years to assist the district with determining a course of action for including encumbrances for benefits costs and directly tying total compensation of positions to budget, but little progress has been made.

Does the district control unauthorized hiring? Human Resources processes all hiring in accordance with board policies and procedures.

8/24/2017

Does the district have controls over part-time academic staff hiring? Human Resources processes all hiring in accordance with board policies and procedures.

11. Budget Monitoring - Is this area acceptable? YES

Is there sufficient consideration to the budget, related to long-term bargaining agreements? The district produces Multi-Year Projection models (MYP) for use in collective bargaining and budget preparation.

Are budget revisions completed in a timely manner? Yes, monthly.

Does the district openly discuss the impact of budget revisions at the board level? **Budget updates are presented to and discussed with the Board of Trustees at regularly scheduled public meetings.**

Are budget revisions made or confirmed by the board in a timely manner after the collective bargaining agreements are ratified? **Yes.**

Has the district's long-term debt decreased from the prior fiscal year? Yes.

Has the district identified the repayment sources for the long-term debt? The district's long-term liabilities includes its OPEB obligation discussed in #12 and its General Obligation Bonds. The only other long-term liabilities include claims payable and compensated absences and load banking for which the district does identify repayment sources.

Does the district compile annualized revenue and expenditure projections throughout the year? Yes, district Fiscal Services makes projections throughout the year. In the District's Budget Allocation Model, it is imperative for the colleges to do their own frequent projections as well.

12. Retiree Health Benefits - Is this area acceptable? YES

Has the district completed an actuarial calculation to determine the unfunded liability? Yes, the district contracts for a new actuarial study every other year. The latest report dated July 7, 2016 shows an estimated liability of \$129 million. Does the district have a plan for addressing the retiree benefits liabilities? Yes, the district has contributed the full Annual Required Contribution (ARC) for the last six years and the district's 2017/18 budget assumptions call for continuing to fund the full ARC. The district has taken significant steps toward funding this long-term liability with \$54 million set aside in the Retiree Benefits Fund, although this still poses a large burden on future budgets, primarily the annual premium cost increases for lifetime health benefits.

13. Leadership/Stability - Is this area acceptable? YES

Has the district experienced recent turnover in its management team (including the Chief Executive Officer, Chief Business Officer, and Board of Trustees)? **Three cabinet-level positions have changed effective fiscal year 2016/17**. **The President of Santiago Canyon College resigned effective July 15, 2016 to become Chancellor at a neighboring district, the President of Santa Ana College retired effective June 30, 2016 and the Executive Vice Chancellor retired effective August 19, 2016.** New Presidents were hired for both Santa Ana College and Santiago Canyon College. Two internal replacements were appointed as Vice Chancellors covering the duties of the Executive Vice Chancellor.

14. District Liability – Is this area acceptable? YES

Has the district performed the proper legal analysis regarding potential lawsuits that may require the district to maintain increased reserve levels? Yes. The district belongs to a Joint Powers Authority (JPA) for property and liability insurance, which helps analyze and monitor liability.

Has the district set up contingent liabilities for anticipated settlements, legal fees, etc? Yes.

15. Reporting – Is this area acceptable? YES

Has the district filed the annual audit report with the System Office on a timely basis? Yes.

Has the district taken appropriate actions to address material findings cited in their annual audit report? Yes, the district takes audit findings seriously and promptly corrects any issues.

Has the district met the requirements of the 50 percent law? Yes.

Have the Quarterly Financial Status Reports (CCFS-311Q), Annual Financial and Budget Reports (CCFS-311), and Apportionment Attendance Reports (CCFS-320) been submitted to the System Office on or before the stated deadlines? **Yes.**

* The District is in stabilization in FY 2016-17 and therefore is in restoration in FY 2017-18. The target included in this recap assumes the District fully restores. Without full restoration, the District will lose ongoing revenue in the current fiscal year.

Compliance with the 50% Law

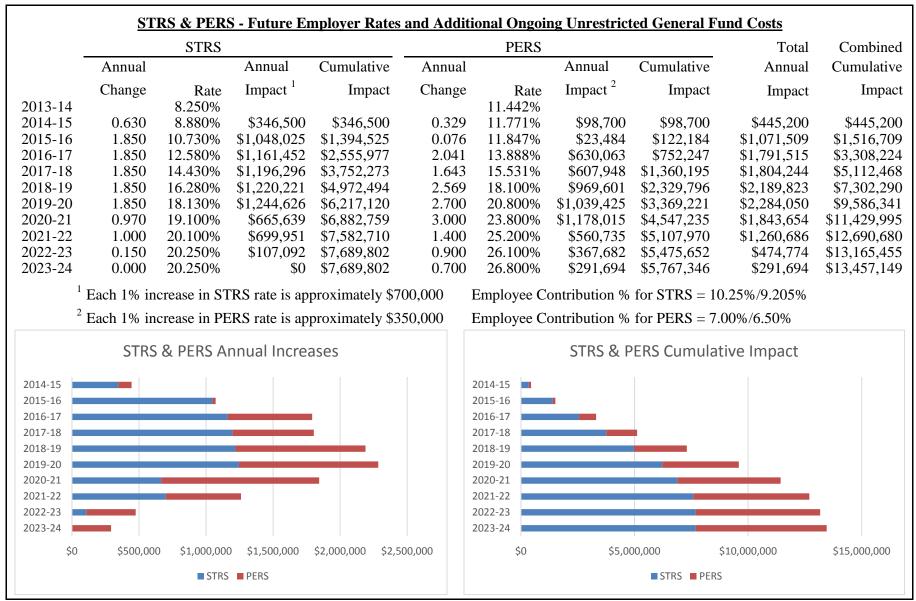

Education Code Section 84362 requires community college districts to expend 50% of the district's Current Expense of Education (CEE) on the salaries and fringe benefits of classroom instructors.

The "Current Expense of Education" (CEE) includes the General Fund operating expenditures excluding expenditures for food services, community services, capital (except equipment replacement), auxiliary services and other costs specifically excluded by law.

The "Salaries for Classroom Instructors" includes the salaries and fringe benefits for classroom instructors and instructional aides (full-time and part-time).

This table recaps the district's 50% computation for the fiscal years 1991-92 through 2016-17 (expressed as a percentage).

Fiscal Year	50% Computation
1991-92	51.57
1992-93	52.08
1993-94	54.69
1994-95	55.58
1995-96	53.95
1996-97	53.70
1997-98	53.85
1998-99	52.89
1999-00	52.47
2000-01	52.03
2001-02	50.35
2002-03	57.51
2003-04	55.20
2004-05	50.12
2005-06	50.28
2006-07	50.24
2007-08	51.16
2008-09	50.89
2009-10	50.46
2010-11	50.54
2011-12	50.18
2012-13	50.09
2013-14	50.18
2014-15	51.38
2015-16	52.55
2016-17	54.06

* Current law increases contribution rates to 19.1% beginning July 1, 2020, and also gives the CalSTRS Board authority to increase rates to 20.1% beginning July 1, 2021, and to 20.25% beginning July 1, 2022, if necessary. (Current law limits the employer contribution rate to 20.25%.)

Cost-of-Living Adjustment

The Cost-of-Living Adjustment (COLA) is a reflection of the percentage change of the Implicit Price Deflator for state and local government purchases of goods and services for the United States, as published by the United States Department of Commerce. Although a COLA is specified in statute for the system, the recent history of the community colleges clearly demonstrates that during the recession of the early 1990's no COLA was received for three consecutive years, and in the most recent recession, beginning in late 2007, no COLA was funded for five consecutive years. For the first time in recent history statutory COLA was computed at zero for 2016-17. In 40% of the last 25 years the State has provided no COLA.

Proposition 30, The Schools and Local Public Safety Protection Act of 2012 passed in November 2012. This proposition temporarily raises the sales and use tax by .25 cents for four years and raises the income tax rate for high income earners (\$250,000 for individuals and \$500,000 for couples) for seven years to provide continuing funding for local school districts and community colleges. The Education Protection Account (EPA) is created in the General Fund to receive and disburse these temporary tax revenues.

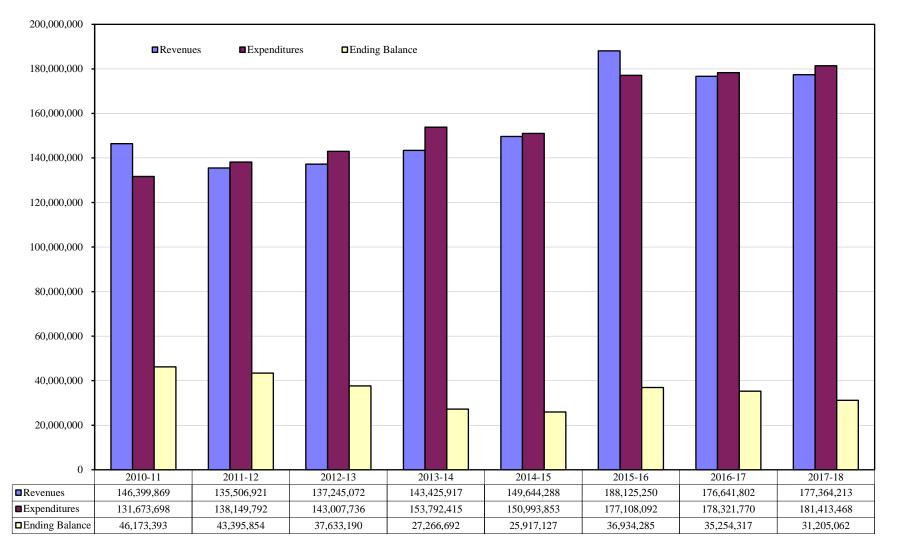

Districts have sole authority to determine how the moneys received from the EPA are spent, provided that the governing board makes these spending determinations in open session of a public meeting of the governing board. Each entity receiving funds must annually publish on its Internet web site an accounting of how much money was received from the EPA and how that money was spent. Additionally, the annual independent financial and compliance auditors ascertain and verify whether the funds provided from the EPA have been properly disbursed and expended as required by law. Expenses incurred to comply with these additional auditing requirements may be paid from the EPA.

Recap of Revenue and Expenses - General Fund 11 and 13
