

Leverage State Funds to Offset Costs for Your Training Programs

**Use the money your company has
already paid for employee training.**

The State of California has created an annual budget from employers taxes to provide businesses with State funds for training resulting in increased competitiveness. These funds are available from the state of California through Employment Training Panel (ETP) to offset your training cost.

Training for Your Employees

Our expert trainers will customize training to help your business gain the competitive edge.

The trainings are designed to help your business:

- Improve employee performance
- Improve product quality
- Reduce operation costs
- Improve Customer satisfaction
