Subject: Treasurer's Investment Report for the Month Ended September 30, 2014

Attached, please find the Treasurer's Investment Report for the County of Orange for the month ended September 30, 2014. The County Treasurer provides this report in compliance with California Government Code Sections 53607, 53646, and 27134 and the County's Investment Policy Statement (IPS). We have included some charts and other data for your information including charts on fund composition and the top ten pool participants. This report is also publicly available on our website at ocgov.com/ocinvestments.

INVESTMENT POOL COMPOSITION

The investments contained within this report are as of September 30, 2014. The Investment Pool Statistics summary shows the total investment responsibility of the County Treasurer as delegated by the Board of Supervisors: the Orange County Investment Pool that includes the Voluntary participants' funds, the Orange County Educational Investment Pool, the John Wayne Airport Investment Pool, and various other small non-Pooled investment funds. The investment practices and policies of the Treasurer are based on compliance with State law and prudent money management. The primary goal is to invest public funds in a manner which will provide maximum security of principal invested with secondary emphasis on providing adequate liquidity to Pool Participants and lastly to achieve a market rate of return within the parameters of prudent risk management while conforming to all applicable statutes and resolutions governing the investment of public funds.

The County Treasurer established three Money Market Funds, the Orange County Money Market Fund, the Orange County Educational Money Market Fund, and the John Wayne Airport Investment Pool, which all are invested in cash-equivalent securities and provide liquidity for immediate cash needs. Standard & Poor's, on September 11, 2014, reaffirmed their highest rating of AAAm on the Orange County and the Educational Money Market Funds. The County Treasurer also established the Extended Fund that is for cash needs between one and five years. The Orange County Investment Pool is comprised of the Orange County Money Market Fund and portions of the Extended Fund. The Orange County Educational Investment Pool is comprised of the Orange County Educational Money Market Fund and portions of the Extended Fund.

The maximum maturity of investments for the County and Educational Money Market Funds is 13 months, with a maximum weighted average maturity (WAM) of 60 days, and they have a current WAM of 53 and 54 respectively. The maximum maturity of the Extended Fund is five years, with duration not to exceed the Merrill Lynch 1-3 Year index +25% (2.40). The duration is currently at 1.47. The investments in all of the funds are marked to market daily to determine the value of the funds. To further maintain safety, adherence to an investment strategy of only purchasing top-rated securities and diversification of instrument types and maturities is required.

ECONOMIC UPDATE

In September, the job market added 248,000 new jobs, and August's job numbers were revised upward by 38,000 to 180,000. The U.S. unemployment rate decreased to a six-year low of 5.9%, down from 6.1% in August. Second quarter U.S. gross domestic product (GDP) increased at a revised annualized rate of 4.6%, up from an earlier revision of 4.2%. Both the Empire State Manufacturing Index and the Philadelphia Fed Index continued to stay positive at 27.54 and 22.5 respectively. The Federal Reserve uses these indexes as regional economic gauges, and a reading above zero signals economic expansion. With respect to housing, S&P/CaseShiller reported that housing prices continue to show positive momentum as prices increased for the twenty-sixth consecutive month in July, up 6.8% from a year ago. However, the index for pending home sales dropped 4.1% on a year-over-year basis in August, the eleventh straight month of decline. At the Federal Open Market Committee (FOMC) meeting on September 17-18, 2014, the Federal Reserve voted to reduce its asset purchase program to \$15 billion from \$25 billion per month. Starting October 2014, the Federal Reserve will purchase \$5 billion per month in agency mortgage-backed securities and \$10 billion per month in longer-term Treasury securities, a reduction of \$5 billion in each. The 10-year Treasury rate increased 15 basis points in September to 2.49%.

The short-term 90-day T-bill ended the month at 0.02%, unchanged from August, and the rate on the two-year note was 0.57% at the end of September, up from 0.49% in August.

INVESTMENT INTEREST YIELDS AND FORECAST

The current gross interest yield year-to-date for fiscal year 2014/2015 is 0.41% for both the Orange County Investment Pool and the Orange County Educational Investment Pool. The forecasted gross yield for fiscal year 2014/2015 is 0.49% primarily due to continued low rates.

APPORTIONMENT OF COMMINGLED POOL INTEREST EARNINGS

Each month, the County Treasurer apportions the accrued interest earnings to each pool participant. As of the first business day of the following month accrued, but unpaid, interest earnings are added to pool participants' average balances in determining a participant's relative share of the pool's monthly earnings. The actual cash distribution will generally be paid in the months following. The September 2014 interest apportionment is expected to be paid by October 31, 2014.

The County Treasurer recently completed the review of the investment administration fee for fiscal year 2012/2013. The fiscal year fee was 8.0 basis points. The net refund due to pool participants was approximately \$97,000. As previously reported to you in June 2013, the County Treasurer completed the review of the fiscal year 2011/2012 fee and calculated a net refund of approximately \$46,000 based on an actual fee of 8.4 basis points. Based on the current policy, a refund to pool participants is processed once the amount exceeds \$100,000. Therefore, all pool participants received a refund based on their pool balances during each fiscal year this month. The investment administrative fee for fiscal year 2014/2015 is expected to be 7.6 basis points.

TEMPORARY TRANSFERS

The County Treasurer as required by California Constitution Article XVI, Section 6, and per the Board of Supervisor's Resolution 13-016 is authorized to make temporary transfers to school districts to address their short-term cash flow needs. The loans are secured by tax receipts to be received by the County Treasurer, as the banker for the school districts. Temporary transfers from the Educational Money Market Fund totaled \$12 million and will be repaid by December 31, 2014.

PORTFOLIO HOLDINGS OF DEBT ISSUED BY POOL PARTICIPANTS

Under guidelines outlined in the current IPS, the County Treasurer may invest in A or above rated securities issued by municipalities. Municipal debt issued by the County of Orange is exempt from this credit rating requirement. The Investment Pools may invest no more than 5% of pool assets in any one issuer, with the exception of the County of Orange which has a 10% limit. The Investment Pools have a total market value of \$314 million in AA- rated County of Orange debt, which represents approximately 4.8% of assets. Prior to purchasing any pool participant debt, a standardized credit analysis is performed.

COMPLIANCE SUMMARY

The investment portfolios had no compliance exceptions for the month of September 2014. The Auditor-Controller Report on Review of the Schedule of Assets Held by the County Treasury as of March 31, 2014 stated that no material modifications needed to be made to the financial statements prepared on a modified cash basis. The Auditor-Controller Initial Follow-up and Close-out of Management Letter on Audit of the Statement of Assets Held by the County Treasury as of December 15, 2013 noted the three recommendations made were fully implemented. The Internal Audit Department issued the Required Annual Examination of the Treasurer's Investment Compliance with Government Code and County Investment Policies for the Year Ended December 31, 2013, and found that the Treasurer-Tax Collector complied in all material respects with the noted California Government Code and Investment Policy Statement requirements. The audit did note the same finding as the Auditor-Controller Report on Continuous Compliance Auditing for December 2013 issued in June 2014, and that the finding was properly disclosed in the Treasurer's Monthly Investment report for December 2013 and corrected.

CREDIT UPDATE

During September, there was one change to the Treasurer's Approved Issuer List. As reported in August 2014, one issuer, Berkshire Hathaway Inc.'s Senior Unsecured debt rating of A+ was added. Due to this change, this issuer was put on hold in September pending a review by the Credit Investment Committee. An ongoing credit analysis of all issuers owned in the Investment Pools is reviewed on a daily, monthly, quarterly, and annual basis.

I certify that this report includes all pool and non-pooled investments as of September 30, 2014 and is in conformity with all State laws and the IPS approved by the Board of Supervisors on February 4, 2014. The investments herein shown provide adequate liquidity to meet the next six months of projected cash flow requirements. I am available if you have any questions on this Investment Report at (714) 834-7625.

¹ Market values provided by Bloomberg and Northern Trust.

² In September 2014, OCIP and OCEIP monthly accrued earnings and monthly and year-to-date net yields were higher than September 2013, primarily due to increased investment in longer term, higher yielding securities and a slightly lower Treasury administrative fee from higher total pool participant balances.

³ Annual estimated gross yield for September 2013 is reported at the actual annual gross yield for FY 13/14.

4 In September 2014, OCIP and OCEIP WAMs were higher than September 2013, primarily due to investing in slightly longer maturities as part of a planned program to reduce significant excess liquidity.

ORANGE COUNTY TREASURER-TAX COLLECTOR CASH AVAILABILITY PROJECTION FOR THE SIX MONTHS ENDING MARCH 31, 2015

Government Code Section 53646 (b) (3), effective on January 1, 1996, requires the Treasurer-Tax Collector to include a statement in the investment report, denoting the ability of the Orange County Investment Pool (OCIP) and the Orange County Educational Investment Pool (OCEIP) to meet their expenditure requirements for the next six months.

The OCIP and OCEIP consist of funds in the treasury deposited by various entities required to do so by statute, as well as those entities voluntarily depositing monies in accordance with Government Code Section 53684.

The Treasurer-Tax Collector is required to disburse monies placed in the treasury as directed by the Auditor-Controller and the Department of Education, except for the making of legal investments, to the extent funds are transferred to one or more clearing funds in accordance with Government Code Section 29808.

The Treasurer-Tax Collector, in her projection of cash availability to disburse funds as directed by the Auditor-Controller and the Department of Education, is relying exclusively on historical activity involving deposits and disbursements and future cash flow projections. No representation is made as to an individual depositor's ability to meet their anticipated expenditures with anticipated revenues.

The Cash Availability Projection for the six months ending March 31, 2015, indicates the ability of the pools to meet projected cash flow requirements. However, there will usually be differences between projected and actual results because events and circumstances frequently do not occur as expected and those differences may be material.

RANCHO SANTIAGO COMMUNITY COLLEGE DISTRICT

DISTRICT OFFICE - BUSINESS OPERATIONS/FISCAL SERVICES

| To: | Board of Trustees | Date: October 27, 2014 |

| Re: | Approval of Consulting Services with Rose & Tuck | |
| Action: | Request for Approval | |

BACKGROUND

In March 2011, the Board of Trustees approved consulting services from Rose & Tuck to review and define the requirements for implementing a position control and budgeting module for the District. Rose & Tuck delivered custom Datatel screens and files to store additional position information and create payroll encumbrance information. With Rose & Tuck's work implemented, ITS, Fiscal Services, and Human Resources have worked together to complete two areas of position control – encumbrances and position budgeting.

ANALYSIS

The work completed to date falls short of a complete Position Control System. The District is at the point where it will benefit from a return visit from Rose & Tuck to review the District's progress, identify issues, and determine key tasks to guide the District through the next phases for a complete Position Control system.

The District is requesting consulting services from Rose & Tuck to review District documentation and reports, and meet with executive stakeholders and the project team. After an onsite visit, meetings, and review, Rose & Tuck will develop an assessment report and provide a project plan for the next phase of the Position Control system.

This agreement is funded by the ITS consulting services account.

RECOMMENDATION

It is recommended that the Board of Trustees approve the consulting services agreement with Rose & Tuck to provide position control project assessment services as presented.

Dear Peter:

Rose & Tuck is pleased to have the opportunity to serve Rancho Santiago Community College District ("the District"). We propose to assist the District by providing consulting and technical services on an ad-hoc, as-requested basis beginning August 2014. Upon request, Statements of Work (SOW) will be prepared for individual projects to show scope of work and estimates of effort; we will await your or your designee's authorization before proceeding on any SOW. We propose to begin work immediately at the convenience of the District and Rose & Tuck.

Darren Rose will be assigned as your engagement manager and will be primarily responsible for coordinating the delivery of our services. Additional Rose & Tuck resources will be deployed as needed at the mutual convenience of the District and Rose & Tuck.

Rose & Tuck's current rate for professional services is \$250 per hour, or \$2000 per day. In addition to professional fees, we are reimbursed for expenses related to our work at the District; these expenses may include airfare, hotel, mileage, car rental, meals, and incidental expenses. Rose & Tuck will provide 90 days notice of any fee increases or changes in our expense reimbursement policy, and will not increase fees prior to July 2015. The District will be billed for the actual time and expenses incurred unless we are working under a firm-fixed-price statement of work. Bills will be sent on a monthly basis and are due and payable within 30 days of receipt.

Rose & Tuck's work for the District may require access to online Ellucian resources (e.g. application documentation, technical documentation); to the extent this access is needed to perform our work, we may request that the District add Rose & Tuck staff working on this engagement to the list of the District's authorized users at Ellucian (you may need to provide us with an email address at your institution to grant this access). We may also require direct access (via telnet or VPN) to your Ellucian or other systems as part of performing our responsibilities.

Rose & Tuck recognizes that the access referenced above or other parts of our work may expose us to information that Ellucian considers confidential. We will provide a signed confidentiality agreement to enable the District to provide such access. Rose & Tuck RSCCD Engagement Letter September 30, 2014 Page 2 of 2

Rose & Tuck's maximum liability associated with the performance of services will be limited to the amount of fees paid for the project in question during the calendar year in which the services were rendered. Your acceptance of this letter below is an acceptance of this limitation of our liability.

This engagement supersedes and replaces any previous engagement or agreement between the District and Rose & Tuck. The terms of this engagement will continue unless otherwise cancelled by either the District or Rose & Tuck, or modified in writing by both the District and Rose & Tuck. The District or Rose & Tuck may cancel this engagement by providing 30 days notice in writing or via email.

Prior to the cancellation of this engagement, and for a period of two years after cancellation, the District and Rose & Tuck mutually agree not to recruit, hire, or retain for employment or contracted services, whether directly or through a third party, any person employed, contracted, or subcontracted by the other, for services related to this engagement, whether directly or through a third party, during the timeframe of this engagement. This agreement will survive the cancellation of this engagement for a two year period following its cancellation.

If these terms meet with your satisfaction, please indicate your acceptance by signing below and returning a copy of this agreement directly to my attention. If you have any questions or require additional information, please contact me at drose@rosetuck.com or (508) 740-7501. We appreciate the opportunity to once again serve Rancho Santiago CCD.

Cordially,

Rose & Tuck

| Project Description: | Position Control – Project Assessment | | | | | |

Project Scope/Services: Rose & Tuck will review existing documentation and meet with representatives of the District to determine the current status of the Position Control project, identify obstacles and/or issues needing resolution for the project to move forward, and determine key tasks and task dependencies for the remaining work on the project. Our work will culminate in the development of an assessment report and project plan for the completion of the project, and a presentation of that report and plan to the project team and executive stakeholders.

We anticipate that our work will involve two onsite visits. Prior to our first visit, we will review existing materials related to the project. Our first visit will be from one to two days and will involve meetings with executive stakeholders and the project team, both as a group and individually. We will process the input from those meetings and prepare a draft report and project plan, which we will present to project stakeholders during our second visit. We will accept comments and reactions to our draft report and project plan during that second visit, and use that input to make refinements and prepare a final document.

We assume that the District will handle logistical arrangements related to compilation of existing project documents, meeting planning, participant and room scheduling, etc.

- A. <u>"Bid" shall mean all capital improvement, construction and construction management bids and</u> proposals (including pre-qualification processes) that are projected to be funded by the District that are first advertised after the effective date of this policy;
- B. <u>"Local Hire" means individuals who reside in the cities of the Rancho Santiago Community College</u> <u>District, veterans and current/former students of RSCCD colleges and provide work on District</u> <u>construction projects.</u>
- C. <u>"Local Business" shall mean a business serving as a contractor or supplier that has its principal</u> <u>headquarters or permanently staffed regional office and that has held a business license with one of</u> <u>the cities within the Rancho Santiago Community College District for a minimum of 3 months;</u>

Rancho Santiago Community College District (RSCCD) Student, Staff and Community Input Regarding RSCCD Board of Trustees' Self-Evaluations

October 2014

Background

In 2009, the RSCCD Board of Trustees implemented an annual review of its internal operations and performance. The Board invites community representatives, faculty/staff and students who interact with them on a regular basis to offer feedback. An online survey instrument is made available to individuals including (but not limited to) the associated student government officers, academic senates officers, the chancellor, vice chancellors, assistant vice chancellors, the college presidents, college vice presidents, representatives of the District's employee unions, college accreditation representatives and community members who serve on the District bond oversight committees or foundations.

The Board reviews the input prior to their own individual assessment using the same survey instrument. At the next meeting, the Board reviews its collective input and develops goals that members want to work toward during the year. The following year, the Board asks the community, staff and students to reassess them so they can evaluate the degree to which their goals have been met and to continue to refine the Board's internal operations and performance, if needed. On a regular basis, the Board Policy Committee also reviews the survey instrument, participant list and timelines and makes recommendations to the Board to ensure the established procedures are still appropriate for intended self-evaluation purposes.

The survey was disseminated to ninety-nine individuals; 30 surveys were completed (a 30% response rate): one student, 20 faculty/staff members, five community members, and four who did not report their affiliation with the District or its colleges.

Fifty-five percent of respondents reported that they regularly attend 11+ Board of Trustees meetings annually; 22% reported that they occasionally attend (6-10 meetings), 13% rarely (1-5 meetings), and 10% never attend.

This year's survey asked respondents how useful they think the questionnaire is to the Board's self-evaluation process; 37% find the survey very useful, and 43% reported that the survey is useful to some degree.

Summary of Findings

The Board is most highly rated (100% of respondents "agree" or "strongly agree") for:

- ▶ Keeping the chancellor informed of community contacts (mean rating 1.33),
- Respecting each others' opinions (mean rating of 1.48),
- > Participating in trustee development activities (mean rating of 1.52).
- Having a positive, cooperative relationship with the chancellor (mean rating of 1.52),
- Sustaining a strong board/chancellor partnership and providing ongoing support for the chancellor to foster a strong partnership (mean rating of 1.55), and
- ➢ Working directly with community leaders and elected officials (local, state, national) to address issues/legislation that affect the college district (mean rating of 1.58).

The Board is rated lowest (less than 70% of respondents "agree" or "strongly agree") for:

- Making decisions in the best interest of students, the colleges, and the entire district mean rating of 2.00),
- Understanding the budget process (mean rating of 2.12),
- Understanding its role and that of the chancellor, presidents, faculty and staff (mean rating of 2.16),
- > Understanding the colleges' educational programs and services (mean rating of 2.20),
- Understanding the fiscal condition of the organization and providing fiscal oversight to assure the financial stability of the district (mean rating of 2.20), and
- Practicing appropriate collegial consultation (participatory governance) (mean rating of 2.29).

Respondents were very thoughtful when given the opportunity to voice their opinions on the Board's greatest strengths, major accomplishments, and areas in which the Board could improve. There were many accolades, as well as suggestions for improvement, offered.

Comparisons with Prior Years' Findings:

In making comparisons between 2014 responses and those of the prior year, it is important to note that the number of respondents from one survey year to the next varies greatly and that percentages may fluctuate widely due to the low sample count.

The most significant increases in ratings since the prior year's survey includes:

- Board members act on behalf of the entire community (+12 percentage points),
- The board works to build a positive image of the district in the community and the board operates ethnically without conflict of interest following established board policies (+11 percentage points each), and
- ▶ Board members participate in trustee development activities (+10 percentage points).

The areas that experienced the most significant decreases in ratings, since 2013, involved budgeting, fiscal and strategic planning issues, community relations and standards of conducts, specifically:

- The board practices appropriate collegial consultation (participatory governance (-24 percentage points),
- The board understands the fiscal condition of the organization and provides fiscal oversight to assure the financial stability of the district (-21 percentage points),
- > The board understands the budget process (-19 percentage points),
- The community and district employees are aware of who the elected trustees are and their role in district governance (-16 percentage points),
- The Board understands the financial audit and accepts responsibility for implementation of its recommendations (-12 percentage points), and
- Board meetings focus on policy issues that relate to board responsibilities (-12 percentage points).

Other Findings:

A significant proportion of survey respondents (over 30%) indicated "not applicable or don't know" as their responses to some questions in the areas of "board relations with the chancellor, presidents, faculty, and staff." Three of the five have shown an increase in awareness since 2013 and the remaining two items showed more respondents are not aware that the board's work with community leaders and the chancellor. Attention may be needed to develop and/or promote a better understanding of these issues.

- Keeping the chancellor informed of community contacts (48%, a decrease of 15 percentage points),
- Completing the chancellor evaluation process and using the results to strengthen chancellor's performance and relationships (45%, a 7 percentage point decrease),
- Following a procedure for annual evaluation of the chancellor (38%, a 3 percentage point decrease),
- Working directly with community leaders and elected officials (local, state, national) to address issues/legislation that affect the college district (35%, a 24 percentage point increase), and
- Sustaining strong board/chancellor partnership and provides ongoing support for the chancellor to foster a strong partnership (31%, an increase of one percentage point).

2014 Respondents' Comments

Board's greatest strengths:

- Following the Brown Act. Following ethical practices of identifying possible conflicts of interest. Maintaining a desire to make decisions that they believe to be in the best interest of the students. Celebrating outstanding students, classified staff, and faculty at the colleges.
- They are generally collegial with each other and they have a good relationship with the chancellor. They don't try to micro-manage.
- The board members appear to work well together and have a good relationship with the chancellor.
- Very involved in the community
- Communication
- They are politically correct.
- The Board demonstrates that it cares about the students, staff and community.
- Long-serving members bring institutional memory.
- Stop being political and get involved in the campus sites (all of them).
- The diversity of the Board and their knowledge of SAC and SCC communities and the two Continuing Education Centers and their needs.
- Professionalism and a commitment to students and the community
- They are politically savvy.
- There is a sincere interest in student success and achievement at both colleges. The interests of the community and overarching community college goals are understood. There is a collegial tone amongst the board members, and respect is shown toward the Chancellor, College Presidents, faculty and staff. Even if there are disagreements, respect is demonstrated.
- The District continues to benefit from having a very good BOT which acts thoughtfully and with integrity. The members appear to respect and value each other and there is a concerted effort to pull together and make decisions that are in the best interests of the colleges and the district as a whole. This is impressive in today's world and much appreciated by employees who work here. Thank you!
- The individuals and the diversity of the Board.

Major accomplishments of the Board in the past year:

- Reviewing and revising its policies. Reviewing and revising its evaluation process.
- The board finally revised many of their policies of the first time in years and put in place policies that the district has needed for some time.
- Renovations to the colleges
- Assisting with the self-evaluation process and actively participating with the accreditation team.
- Lobbying in Sacramento
- Getting the new buildings for SAC and SCC built.
- Successful completion of the accreditation process and implementation of Measure Q.
- This self-evaluation process has led to many excellent changes. The Comprehensive Master Plan, Mission of the District, and the shift from "Vision" to "Goals" in a serious Strategic Plan, which will be evaluated regularly, makes more sense from an assessment point of view. The Board has demonstrated that it is actively concerned about the accreditation status of the colleges, in that their actions can support or compromise a college's accreditation status. Although the district is not accredited, it is important to understand that the colleges are partners with the district--and the Board is the policy-making body that sets this tone. A tone of competition or imperious behavior does not serve this purpose--and it is evident that the Board has understood this clearly. A subtle shift has occurred in the last years, and this is why I mention this as an accomplishment. This accomplishment is not just for this year; however, I would be remiss not to mention it. Finally, please accept my gratitude for the support given related to the recent accreditation report and preparation for the external evaluation site visits.
- Fundraising activities

Areas in which the Board could improve:

- Adhering to its own board policies. Adhering to AB1725. Behaving in a collegial, respectful, and civil manner even when disagreeing with others. Following faculty recommendations on items upon which the board has agreed that faculty have primary advice, which includes curriculum and degrees. When rejecting faculty recommendations, following education code and providing a written rejection that includes compelling reasons for the rejection. Understanding collegial consultation and engaging it before creating board policy that deals with 10+1 items found in AB1725 and board policy. Learning more about how the RSCCD budget allocation model works as well as budgeting in general. Considering student, faculty, and college voices/input equally to district voices/input.
- The Board needs a clearer understanding of faculty, staff and student roles in shared governance; which includes an understanding of the "10+1," Title 5, Ed Code and our board policies. If faculty, staff or student leaders bring concerns to the Board, those concerns should be investigated and not ignored.
- The Board does not understand the collegial consultation process. Consultation does not involve inviting groups to meetings, it involves seeking them out to discuss issues before taking actions. When those groups voice concerns, the board should not ignore them and move forward without providing a written explanation for their actions. Proceeding against the recommendations of constituent groups undermines the governance process. The Board has legal authority over the budget, yet our yearly budget deficit has increased. How can they give the chancellor a positive evaluation with our current budget problems?
- participation, involvement
- I hope they will understand the budget better, understand it first before approving.
- I attended a Special Project meeting called by one of the board members to specifically look at SB850. It concerns me that the Board uses its heart to rush into some programs without using the mechanics of due diligence. For instance, Academic Senate on all levels-the campuses and the State chancellor's office-has passed resolutions asking for more information on the 4-year degree program. Those concerns appeared to be brushed aside. I have been at the District for approximately 16 years and have witnessed the Board rushing into securing the building for OEC without all the necessary safety measures. Now, we find ourselves having to pay out over \$20 million to renovate a building. That tells me the Board did not use proper measures to oversee the OEC building completion. It concerns me when the Board ties the stabilization fund to deficit spending/budgeting. We knew when the fund was being created it would end. It was created for specific reasons. Much of classified, adjunct faculty and student programs helped build that fund. We want the Board to realize that it is our money and now when classified is in negotiations the stabilization created on classified layoffs should be shared with classified. The Board should be looking at ways with the Chancellor to increase revenue and to hear from the campuses so they know what is going on directly and not indirectly.
- Participatory governance
- The Board needs to pursue information relating to participatory governance. It is not fully aware of what goes on in other upper management meetings, only what they are told. Dig deeper, and get heads out of the sand. (ie: Classified was recently told by a board member that there is 'no discussion of RIFs', but the administration stated there has been discussion of RIF's). No one is perfect, however when things wind up in The Register, we need to take a step back and tighten the reins on more than rank and file employees. This provided a bad light on our district that many work hard to lift. BE MORE INFOMRED
- Visiting the SCC Foundation Board meetings at least twice a year.
- Sometimes the Board seems to be playing to the audience than engaging with one another on issues.
- The Board seems to have a low opinion of faculty. The minutes don't capture all the discussions or reports. The Board understands that the colleges are operating under a structural deficit, yet they faulted the colleges for not agreeing to give more money to the Chancellor when he requested an augmentation.
- Collegial consultation with the faculty prior to taking a stand on academic issues would serve fact finding and clear and better decision making. While there is collegial consultation--no implication that the relationship is devoid of this--where curriculum and programmatic shifts are concerned, no public statement should be made without serious consultation. Once that consultation has occurred in earnest, there may be disagreement. If there is, it is appreciated that surprises be avoided at a public meeting.
- Don't listen to the crazy people. Unfortunately we have a few and they are in "leadership" positions.

Rancho Santiago Community College District (RSCCD) Student, Staff and Community Input Regarding RSCCD Board of Trustees' Self-Evaluations (Respondents Who Regularly Attend BOT Meetings)

October 2014

Background

In 2009, the RSCCD Board of Trustees implemented an annual review of its internal operations and performance. On a regular basis, the Board Policy Committee also reviews the survey instrument, participant list and timelines and make recommendations to the Board to ensure the established procedures is still appropriate for intended self-evaluation purposes.

The Board invites community representatives, faculty/staff and students who interact with them on a regular basis to offer feedback. An online survey instrument is made available to individuals including (but not limited to) the associated student government officers, academic senates officers, the chancellor, vice chancellors, assistant vice chancellors, the college presidents, college vice presidents, representatives of the District's employee unions, college accreditation representatives and community members who serve on the District bond oversight committees or foundations.

The Board reviews the input prior to their own individual assessment using the same survey instrument. At the next meeting, the Board reviews its collective input and develops goals that members want to work on for the year. The following year, the Board asks the community, staff and students to reassess them so they can evaluate the degree to which their goals have been met and to continue to refine the Board's internal operations and performance, if needed.

The survey instrument was disseminated online to ninety-nine individuals; 30 surveys were completed (a 30% response rate). Fifty-five percent (n=17) of respondents reported that they regularly (11+ meetings annually) attend Board of Trustees meetings: 1 student, 14 faculty and staff, and 2 community members. Those data are included in this report.

Summary of Findings

The Board is unanimously rated as satisfactory (100% of respondents "agree" or "strongly agree") in seven of the forty-four areas rated by respondents, specifically board members:

- Respecting each others' opinions,
- Keeping the chancellor informed of community contacts,
- Having a positive, cooperative relationship with the chancellor,
- Sustaining a strong board/chancellor partnership and providing ongoing support for the chancellor to foster a strong partnership,
- Working directly with community leaders and elected officials to address issues/legislation that affect the college district,
- Working to build a positive image of the district in the community, and
- Participating in trustee development activities.

The Board is rated lowest (two-thirds of respondents "agree" or "strongly agree" on issues in the area of strategic planning, relationships with staff, and its leadership, specifically board members:

- Understanding its role and that of the chancellor, presidents, faculty and staff (63%),
- Community and district employees' awareness of who the elected trustees are and their role in district governance (65%),
- Practicing appropriate collegial consultations (65%),
- Understanding the colleges' educational programs and services (67%), and
- Completing the chancellor's evaluation process and uses the results to strengthen the chancellor's performance and relationships (67%).

Comparisons with Prior Years' Findings:

In making comparisons between 2014 responses and those of prior years, it is important to note that the number of respondents from one survey year to the next varies greatly and that percentages may fluctuate widely due to the low response counts.

The most significant negative changes in ratings compared to the 2013 survey all related to policy roles:

- Community and district employees' awareness of who the elected trustees are and their role in district governance (-35 percentage points),
- Giving adequate attention to the mission, goals, and future planning of the district (-31 percentage points),
- Understanding the difference between its policy and oversight roles and the roles of the chancellor and staff (-27 percentage points), and
- Practicing appropriate collegial consultation met (-26 percentage points).

Other Findings:

Attention may be needed to develop and/or promote a better understanding of issues pertaining to board relations with the chancellor, presidents, faculty and staff. While this core group of respondents who regularly attend Board meetings tended to respond to all items, a significant proportion indicated "not applicable or don't know," mainly:

- Keeping the chancellor informed of community contacts (53%),
- Completing the chancellor evaluation process and using the results to strengthen chancellor's performance and relationships (47%).
- Following a procedure for annual evaluation of the chancellor (35%),
- Working directly with community leaders and elected official to address issues/legislation that affect the college district (35%), and
- Sustaining a strong board/chancellor partnership and providing ongoing support for the chancellor to foster a strong partnership (29%).

This year, to fully understand how respondents feel about the board's self-evaluation process, a question about the usefulness of the survey instrument was added. More than one-third (35%) find the instrument "very useful," more than half (53%) find it "somewhat useful," 17% were neutral and the remaining 3% did not find it very useful.

Detail data follows.

2014 Respondents' Comments

Board's greatest strengths:

- Following the Brown Act. Following ethical practices of identifying possible conflicts of interest. Maintaining a desire to make decisions that they believe to be in the best interest of the students. Celebrating outstanding students, classified staff, and faculty at the colleges.
- They are generally collegial with each other and they have a good relationship with the chancellor. They don't try to micro-manage.
- The board members appear to work well together and have a good relationship with the chancellor.
- Very involved in the community
- Communication
- They are politically correct.
- Long-serving members bring institutional memory.
- Stop being political and get involved in the campus sites (all of them).
- Professionalism and a commitment to students and the community
- There is a sincere interest in student success and achievement at both colleges. The interests of the community and overarching community college goals are understood. There is a collegial tone amongst the board members, and respect is shown toward the Chancellor, College Presidents, faculty and staff. Even if there are disagreements, respect is demonstrated.
- The individuals and the diversity of the Board.

Major accomplishments of the Board in the past year:

- Reviewing and revising its policies. Reviewing and revising its evaluation process.
- The board finally revised many of their policies of the first time in years and put in place policies that the district has needed for some time.
- Renovations to the colleges
- Lobbying in Sacramento
- Successful completion of the accreditation process and implementation of Measure Q.
- This self-evaluation process has led to many excellent changes. The Comprehensive Master Plan, Mission of the District, and the shift from "Vision" to "Goals" in a serious Strategic Plan, which will be evaluated regularly, makes more sense from an assessment point of view. The Board has demonstrated that it is actively concerned about the accreditation status of the colleges, in that their actions can support or compromise a college's accreditation status. Although the district is not accredited, it is important to understand that the colleges are partners with the district--and the Board is the policy-making body that sets this tone. A tone of competition or imperious behavior does not serve this purpose--and it is evident that the Board has understood this clearly. A subtle shift has occurred in the last years, and this is why I mention this as an accomplishment. This accomplishment is not just for this year; however, I would be remiss not to mention it. Finally, please accept my gratitude for the support given related to the recent accreditation report and preparation for the external evaluation site visits.
- Fundraising activities

Areas in which the Board could improve:

- Adhering to its own board policies. Adhering to AB1725. Behaving in a collegial, respectful, and civil manner even when disagreeing with others. Following faculty recommendations on items upon which the board has agreed that faculty have primary advice, which includes curriculum and degrees. When rejecting faculty recommendations, following education code and providing a written rejection that includes compelling reasons for the rejection. Understanding collegial consultation and engaging it before creating board policy that deals with 10+1 items found in AB1725 and board policy. Learning more about how the RSCCD budget allocation model works as well as budgeting in general. Considering student, faculty, and college voices/input equally to district voices/input.
- The Board needs a clearer understanding of faculty, staff and student roles in shared governance; which includes an understanding of the "10+1," Title 5, Ed Code and our board policies. If faculty, staff or student leaders bring concerns to the Board, those concerns should be investigated and not ignored.
- The Board does not understand the collegial consultation process. Consultation does not involve inviting groups to meetings, it involves seeking them out to discuss issues before taking actions. When those groups voice concerns, the board should not ignore them and move forward without providing a written explanation for their actions. Proceeding against the recommendations of constituent groups undermines the governance process. The Board has legal authority over the budget, yet our yearly budget deficit has increased. How can they give the chancellor a positive evaluation with our current budget problems?
- participation, involvement
- I hope they will understand the budget better, understand it first before approving.
- The Board needs to pursue information relating to participatory governance. It is not fully aware of what goes on in other upper management meetings, only what they are told. Dig deeper, and get heads out of the sand. (ie: Classified was recently told by a board member that there is 'no discussion of RIFs', but the administration stated there has been discussion of RIF's). No one is perfect, however when things wind up in The Register, we need to take a step back and tighten the reins on more than rank and file employees. This provided a bad light on our district that many work hard to lift. BE MORE INFOMRED
- Sometimes the Board seems to be playing to the audience than engaging with one another on issues.
- Collegial consultation with the faculty prior to taking a stand on academic issues would serve fact finding and clear and better decision making. While there is collegial consultation--no implication that the relationship is devoid of this--where curriculum and programmatic shifts are concerned, no public statement should be made without serious consultation. Once that consultation has occurred in earnest, there may be disagreement. If there is, it is appreciated that surprises be avoided at a public meeting.
