Attendance

Important notes Before you Begin

Attendance for positive attendance classes (PANC) must be recorded in the AttendanceWeb system. Do not use any Self-Service Attendance tabs to record attendance.

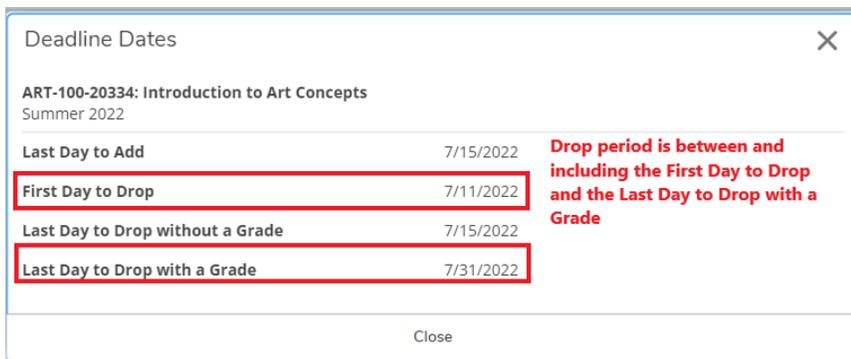

You can access the AttendanceWeb system through the link available in Self-service or by entering the URL below on your browser.

Drops

Important notes Before you Begin

- Faculty can **not** drop students after the **Last Day to Drop with a Grade**. To view the Drop period Faculty can open their Deadline Dates pop-up by clicking on the Deadline Dates link on their Section Details screen.

- You most likely won't see a Last Day to Drop without a Grade because Non-Credit does not require a particular grade to be recorded during the drop period when a student is dropped from a class. The **Last Day to Drop with a Grade** is the **last day that you can drop a student from your class**:

Grading

Faculty can post grades either for each student individually or for the entire class. Grades cannot be edited after they are posted. However, after posting grades, faculty can go back in later to enter additional grades for other students.

Select Grading, then click Final Grade

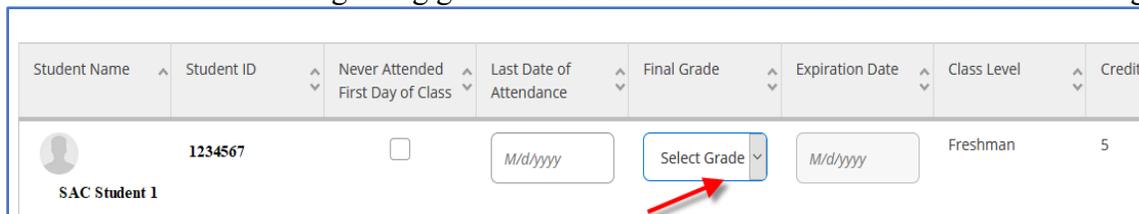

a) Grading No-shows

Grades are not required for no-show students (these are student with zero attendance). No-shows should be dropped using the Drop roster. If you dropped them using the Drop roster these students will have a “Never Attended” check mark.

b) Grading Active Students (student that are attending/participating)

Grade students that have attendance or participated in class by selecting a Final Grade from the drop down. Refer to noncredit grading guidelines to determine when or if to issue a student a grade.

c) Grading Dropped Students (students that stop attending)

Faculty cannot grade students using the Final Grade tab if they have already been dropped. The Final Grade field will be disabled and you will see the drop date. To Grade and Drop students that stop attending use the Drop Roster (see page 5 for details).
