Multi-year Projections

- Multi-year Projections (MYP)
- Projections, based on assumptions
- Several models reviewed by FRC each year
- No matter the assumptions, similar pattern over time
- Ongoing expense increases (~\$5 million/year) outpace ongoing revenues
- Easier to project expenditures in future years
- Future revenues very difficult to project as they are dependent on a number of external factors such as state revenue, prop 98, growth or decline of FTES
- Projections are harder to get accurate the further out we project
- Look back at past projections

<u>Multi-year Projections</u> Looking into the Crystal Ball

- What does the future have in store?
- Multi-Year budget projections (pages 108 112)
 - Baseline, best and worst case modeling
 - MYP's are based on best information we know now
 - District's ability to earn back from FTES decline and any Growth funding?
 - Continuing STRS/PERS cost increases
 - Stable H&W premium cost increases?
- Regardless of which assumption model chosen, the Budget Stabilization Fund is estimated to be exhausted between 2019 and 2021 without additional ongoing revenues or expenditure reductions
- Need to closely monitor state economy/budget developments and make expenditure reductions as necessary into the foreseeable future

- 1. Welcome: Mr. O'Connor called the meeting to order at 1:30 p.m.
- 2. State/District Budget Update O'Connor
 - System request for 2018-2019
 - i. Total \$382.5 Million
 - ii. Some costs listed as TBD
 - iii. No COLA or growth as Chancellor Oakley believes those are a given an in addition to the budget request
 - iv. General operating expenses \$200 Million total, \$4.7 Million for RSCCD
 - v. Full time Faculty hiring potential 12-18 new faculty for RSCCD but depends on how these funds would be allocated
 - Full time faculty funding would be ongoing, but not part of base, and the amount of allocation changes each year up or down, even though the positions were hired and costs go up
- 3. Discussion of Restoration of FTES O'Connor
 - Presentation from Declining Enrollment Seminar included
 - RSCCD went into stabilization for 2016-2017
 - 2017-2018 is first year or restoration
 - Funding received for one year to keep stable (2016-2017)
 - Three years to restore back to base, but funding loss is immediate
 i. Not considered growth
 - Can restore including inflation adjustment
 - Growth can only be made after restoring to base
 - If unable to fully restore, new base is calculated and any unrestored FTES is lost

Mr. O'Connor reviewed hypothetical examples demonstrating how various scenarios will affect our funding. Scenarios included growth and declining enrollment at different rates between the two campuses. Additional examples were included to show impact of borrowing from summer FTES. Examples were calculated using credit FTES rates, which are higher than non-credit. There was a suggestion to include a "deficit factor" in the model to adjust for the non-credit mix.

4. BAM Language Review – O'Connor At the request of District Council, the BAM Subcommittee met and discussed the Budget Allocation Model and the request for funding by Santa Ana College. All members of the subcommittee except Ms. Gil were able to attend. There is potential for language to be in conflict but issues seem to be resolved when model is looked at as a whole. The subcommittee reiterated their belief in the model and the need to be consistent in following the model. It was recommended by the subcommittee to uphold the original recommendation.

It was noted that the model should be reviewed for language changes during the current year review, but that would affect the future. There are opportunities to consider additional scenarios not previously considered, such as both colleges declining. The language regarding stabilization should also be reviewed as it becomes more relevant. It was requested that the BAM Language Review item be carried over to the next agenda and continued to be discussed.

Mr. O'Connor called for a motion on the subcommittee's recommendation. A motion was made by Ms. Zarske, seconded by Dr. Collins and approved unanimously to reiterate the original recommendation made to District Council.

- Standing Report from District Council Mettler No update was given, as Ms. Mettler was not able to attend FRC.
